

MARSHFIELD, Ore., July 4.—Fort Clinton, aged 21, shot and killed Erma Wagner, aged 13, at Myrtle Point after a dance closing the Fourth of July celebration at that place early today, according to report to local officers. Clinton killed himself. Jealousy was given as the cause for the shooting. Both were members of a prominent family.

COMPROMISE IS OFFERED BY S. P. IN TRAIN ROW

Connection At Pacific Junction With Oakland Pier Offered Alameda

ALAMEDA, July 5.—The storm of protest aroused by the proposal to abandon the 5:46 a. m. train and boat from Alameda to San Francisco has caused the Southern Pacific to offer a compromise arrangement, it was announced today. No compromise was offered in the matter of the 7:15 a. m. boat and train from San Francisco to Alameda, which it is also proposed to abandon.

In a letter addressed to Mayor Frank Otis, General Manager J. H. Dyer of the Southern Pacific offers in place of the 5:46 a. m. train, to start a train from Pacific Junction at 5:50 a. m., which would run easterly on Lincoln avenue and across the Fruitvale bridge to Oakland pier, practically the same route as taken by the "Horseshoe" trains. This train would arrive at Oakland pier at 5:40 a. m. and at San Francisco at 6:10 a. m. The present 5:46 a. m. service boat from Alameda arrives at San Francisco 6:07 a. m.

Such an arrangement as Dyer proposes, it is claimed, would permit the abandonment of the Alameda ferry that connects with the 5:46 a. m. train. It would evade the hardship that would be worked on Alamedans by the complete abandonment of the 5:46 a. m. train, but would, it is pointed out, necessitate earlier rising by those desiring to use the proposed service.

Mayor Otis will take no action in the matter until after a conference with City Attorney Locke.

Letters of protest against the proposed action of the Southern Pacific company in abandoning the 5:46 a. m. and 1:15 a. m. services continue to pour in to Locke's office.

Lloyd George Asks Job As Motorman

ATLANTA, Ga., July 5.—Lloyd George has made application to the Georgia Railway and Power Company for a job as trolley motorman. He is stationed near Atlanta, is a soldier, and does not drop his aitches.

WOMEN FALL INTO NIAGARA; BOTH RESCUED

NIAGARA FALLS, N. Y., July 5.—Mrs. Joseph Raines of this city was overcome by heat today and tumbled into the Niagara river a short distance above the American falls. Another woman, unidentified, fainting from excitement, followed her. Both were rescued when not far from the cataract.

Strife Rages in Ranks of Fine Arts Society

(Continued from Page 1)

which Elinor Glyn and the one at which Mary Garden spoke were the largest attended.

None of those who have withdrawn from the society express any criticism of the program or of the organization, but most are emphatic in the view that their names should not be used. It is pointed out that a membership campaign in the society has been on and that prospective members have been given the same list of patronesses.

Alien Registration Is On Increase

A mistaken belief that registration of aliens under the new alien poll tax law was about to close sent a rush of men who are not citizens of the United States to the office of County Clerk Gross today to have their names placed on the rolls. Three deputy registrars under Registrar Jo A. Wagner were kept busy all day taking care of the unusual influx. There are ten deputies in the field, and all report that since reports were published that a test case was to be brought and that opponents of the law expect it will be declared unconstitutional, there has been much less difficulty encountered in securing registrations.

Gross said today he expected a great proportion of the estimated 20,000 or more aliens in Alameda county to register, as there is no money to be paid on registering and as there is a penalty for refusing to do so. He said the Japanese association plans to have registration begin at its offices, 412 Eighth street, Monday night.

Success is a thing that some are contented to envy in others—and some achieve for themselves.

GIRL SCRATCHES, BITES ABDUCTOR, MAKES ESCAPE

Southern California Towns
To Make Example of
Assailants.

LOS ANGELES, July 5.—Determined to make examples of them by demanding maximum penalties in each case, the authorities of a score of Southern California cities and towns today sought two assailants of girls who have operated in beach communities. The latest attempt at abduction occurred early today when Miss Lillian Walker of Los Angeles was choked by a man who attacked her at the Ocean Park Heights station and dragged her to a waiting automobile. Miss Walker recovered consciousness, and after biting and scratching her assailant finally escaped after falling from the machine.

An investigation showed that other girls have been abducted and mistreated by a bandit who carried Miss Lucille Umphries of Long Beach away in an automobile Saturday night after holding up her escort. The bandit spared Miss Umphries after she pleaded with him for half an hour.

Alleged Reds Have Their Trials Set

The date for the preliminary examination of the five men charged with criminal syndicalism was set for July 13 this morning by Police Judge Ralph Richmond. The men were arrested in a raid which was conducted by former Chief of Police Benton Thompson on a meeting which was conducted in Carpenter's hall. The men charged are Howard Welton, Michael Dunn, Patrick Casey, James McLaughlin and John Hannon.

GOVERNMENT WINS.
GRAND RAPIDS, Mich., July 5.—The case of the United States against Serol Powers, wool merchant of Nashville, Tenn., in which the government sued to recover \$2370 in profits in excess of 7 1/2 cents a pound, was decided in favor of the government by Federal District Judge Sessions here today. The case was a test and affects a large number of wool wholesalers and distributors throughout the United States.

COUNCILMEN TO FACE MAYOR AT FUTURE SESSIONS

The solid, hollow-square formation, which the old City Council have held since the City Hall was built, was broken today by the new Council, which refuses to sit with desks aligned in a row, and have clustered their desks in a sort of circular zig-zag effect which makes each commissioner sit quarter-corner to the Mayor and practically facing him. In the center of the "ring" is an open space where folks may talk to the Council. Behind the council "ring" is the long press table. The new arrangement brings the Commissioner face to face with the Mayor at all times.

FIRE OFFICERS GET PROMOTION

Fire Chief Sam Short announced today that he had made two changes in his department which are in effect now. W. H. McGrath, who was second assistant fire chief, was made first assistant fire chief. Battalion Fire Chief W. L. Lutkey was promoted to the place made vacant by McGrath. Former Fire Chief Elliott Whitehead, who was demoted last Friday by the City Council, will take his position of battalion fire chief which he holds under civil service rating.

Short announced that a number of minor changes will be made in the department until the vacation period is over and then several other permanent changes will be made.

CHILD FORETELLS DEATH.
SYRACUSE, N. Y., July 5.—The strange case of the death of Margaret Marie Moss, twelve years old, on the day which she, three days previously, had predicted, has become known. Stricken with a severe heart attack while watching a baseball game, the girl became delirious, during which she repeatedly named the day on which she would die.

CASE CONTINUED.
Police Judge Mortimer Smith continued the case of Tony Soares, who is charged with failing to provide for his two minor children when he learned that he was a parole violator from San Quentin prison. No action will be taken in the case until a report is received from the board of prison directors regarding his case.

BOOZE SLEUTHS FIND 13 OASES IN SMALL TOWNS

Unlucky Number; Liquor
Seized and Business Places
Closed Up.

SAN FRANCISCO, July 5.—Out of sixteen Central California towns visited by a "flying squadron" from the office of the district prohibition enforcement officer, during the holiday period, thirteen produced results in the way of raids and liquor confiscations, the director announced today. The three towns where the raid condition was found are Guerneville, Sonoma county; Byron, Contra Costa county; and Altamont, Alameda county.

It was soon determined that the automobile in which the "flying squadron" made the trip would not be big enough by far to hold all of the confiscated goods, so seals were placed on the liquor places after the raids.

Prior to leaving for Los Angeles where he plans a dry clean-up, John Exnicios, prohibition supervisor, declared today that he would remove William J. Jordan as his chief officer. Exnicios said he expected to find a fertile field for the talents of prohibition officers in Los Angeles and that before many days he would have that town as arid as it pretends to be.

The dry chief said he had not made up his mind as to who would succeed Jordan and that other dry officers now in the service would follow in his wake.

Jordan, an old revenue man, will go back on the civil service list.

Ad. Club's Convention Is Opened At Tacoma

TACOMA, Wash., July 5.—All cities on the Pacific coast were well represented this morning when the business session of the Pacific Coast Advertising Clubs Association opened. Dean Stephen L. Miller of the College of Business Administration of the University of Washington, told the delegates that advertising, properly written and properly placed, could speed the business re-adjustment in the nation and bring about prosperity.

Elliott M. Epstein, counsel of the San Francisco Ad Club, recited the work toward "truth in advertising" that has been accomplished there.

Farmers Battle Grass Fires Near Aetna Springs

Blaze Along Border Between
Napa and Sonoma Now
Under Control.

SANTA ROSA, July 5.—After sweeping through Knight's Valley, east of here, a brush and grass fire raced unchecked before a brisk wind over the county line into Napa county today and when within three miles of Aetna Springs, a summer resort, was under control, county fire officials reported.

Reports to the Napa County Farm Adviser's office today were that the fire took a path leading straight to the Springs after burning along the county line for a considerable distance.

A north wind sweeping over a brush fire near Windsor, eight miles north of here, sprinkled ashes over Santa Rosa and other points within a radius of ten miles. The fire was controlled today.

Legion Men to Offer \$250,000 To Beat Dempsey

TULARE, July 5.—A quarter million dollars is what Tulare post of the American Legion thinks it would be worth to have Jack Dempsey knocked out by an ex-service man.

The executive committee of the post announced today that it proposed a nation-wide poll of the legion on the question of raising \$250,000 as a purse for the former soldier or sailor who would put Jack down for the count of ten within twelve months.

The proposal will be officially transmitted to Burton Fitts of Los Angeles, state commander of the American Legion, with the request that he lay it before John G. Emery, national commander.

ADDS ZEST TO HOME DRIVES.—Harvard's athletic spirit—The heat of Los Angeles, under the better, cheaper, handier than Jones. Delicious in water.—Advertisement.

Turk Nationalist Army Moves on Constantinople

Allies May Call On Rumania
To Supply Troops To
Repel Invaders.

LONDON, July 5.—Turkish Nationalist troops are reported to have occupied the whole of the Ismid peninsula, penetrating the neutral zone in the direction of Constantinople, said an Exchange Telegraph despatch from Constantinople today. The allied commissioners at Constantinople are said to be considering the advisability of asking Rumania to send troops to Constantinople.

LONDON, July 5.—The Greek army in Asia Minor may be compelled to suspend operations against the Turkish Nationalists as the result of the destruction of the main Greek ammunition depot at Smyrna, said a Central News despatch from Athens today. The city was damaged and many persons were killed and wounded by the explosion.

PARACHUTE LEAP FATAL.
SPRINGFIELD, Ohio, July 2.—Roy Walhausen, a balloonist, was killed here yesterday when his parachute failed to open when he had to leap from his balloon, scarcely one hundred feet off the ground upon its taking fire. His father, who witnessed the accident, said he had been making ascensions since he was 11 years old.

THREE TOWNS FIGHT FIRE.
CARLTON, Ore., July 2.—Fire of unknown origin destroyed a restaurant, the hall of the Ancient Order of United Workmen and four unoccupied buildings, including one used recently as a motion picture house. The loss was estimated at \$15,000, with \$2500 insurance. Fire-fighting apparatus from McMinnville and Yam Hill helped combat the flames.

CANADA'S DEAD HONORED.
VIMY RIDGE, France, July 2.—A "cross of sacrifice," erected in memory of hundreds of Canadians who fell at the capture of this famous height four years ago, was unveiled yesterday by Prime Minister Meighen of Canada.
Divorce and domestic infidelity are virtually unknown among the Esquimaux.

THREE DEATHS ON FOURTH ARE LAID TO FIRECRACKERS

Nine Persons in Bay Region Also Receive Serious Injuries.

Three persons have died and nine others sustained serious injuries in a series of Fourth of July accidents in which firecrackers were held to be responsible. The list of three dead and nine injured has been compiled from the reports received by the police of the bay region.

The dead: GLADYS PLATHMAN, aged 6, 168 Berkeley street, San Francisco; burned to death while playing with firecrackers.

PERLAINE NELSON, 2 years old, 709 Tennessee street, San Francisco; died from poisoning from eating a piece of a gun which contained phosphorus.

WILLIAM KAISER, 657 Duncan street, San Francisco, aged 13; died from tetanus caused by the exploding of a pistol cartridge.

The injured: HOWELL ARENEN, 12 years old, 1085 Stanford avenue, Oakland; burned by firecrackers.

CARL HOLM, 1137 Hearst avenue, Berkeley; burned by firecrackers.

JOSEPHINE PONILLA, 611 Bay street, San Francisco; burned on the face and hands by explosion of firecracker which she held in her hand.

ELIETTA WILLIAMS, aged 6, 1125 De Haro street, San Francisco; eyes burned severely by exploding firecrackers.

VINCENT MOHAR, 10 Army street, San Francisco; eyes and face burned by giant cracker.

JOSEPH WILLIS JR., 2525 Lombard street, San Francisco, 3 years old; burned face and hands from exploding firecracker.

HERBERT SHREIBER, 10 years old, 7 Lisbon street, San Francisco; burned severely by exploding firecrackers.

BETTY LOWFORD, North Beach, San Francisco; burned by Roman candle.

GEORGE ANDERSON, 5 years old, 860 Kansas street, San Francisco; may lose right eye as result of exploding firecracker near his face.

In nearly all the cases the children were burned by exploding firecrackers which had been tossed into the air.

Aside from the injuries sustained, firecrackers were also held responsible for many fires which broke out Sunday and Monday in all sections of the bay district, the majority of which were grass fires.

Captain J. S. Eichelderger, 2217 Congress street, Berkeley, a member of the college city fire department, was injured while fighting a grass fire yesterday. His injuries, in the nature of burns and blisters, were caused by the terrific heat from the fire.

Albert Murphy, 2226 California street, Berkeley, sustained minor injuries while fighting the same fire.

Ralph C. Wooley, 1428 Eighth street, Alameda, sustained a painfully injured left foot from falling glass during the fire at Twelfth and Jackson streets, Oakland, Sunday.

The Arnenen boy was severely burned on the hip as the result of

Peace With U. S. Arouses No Zip Among Germans

By FRANK E. MASON,
International News Service Staff Correspondent.

BERLIN, July 2.—Germany is apathetic today over peace with America.

News that President Harding had signed the Congressional resolution finally ending the technical state of war between the two countries aroused no enthusiasm. There were no poy bells, no flags, no whistles, no cheering in the streets.

There was even no flag flying over the American "embassy," Ellis Loring Dresel, the United States commissioner, ordered flags held in readiness so they could be run up when official word was received from Washington that President Harding had signed the peace resolution, but up to sundown the despatch had not been received.

In the Reichstag lobby satisfaction was expressed over the "technical state of peace," but it was declared that no great change in conditions might be expected.

The Berliner Tagblatt carried a brief announcement that peace had been restored with the United States. Theodore Wolff, editor of the paper, in his weekly editorial, ignored peace completely.

The Communist newspaper, Rote Fahne, and the Socialist organ, Vorwaerts, printed a three-line item saying that President Harding had signed. There was no comment.

CASHIER RESIGNS.
TRACY, July 2.—A. W. Mueller has resigned as cashier of the Bank of Tracy to engage in business for himself. He is succeeded by L. E. Kell, who comes from Billings, Mont., where he has had years of experience in banking.

placing a lighted bunch of firecrackers in his pocket. The boy had lit one cracker and, unknowingly, had also ignited the fuse to which the crackers were tied. He was treated at the Emergency hospital last night.

San Jose Man Stricken With Serious Illness

SAN JOSE, July 2.—William Roschken, pioneer business man of this city, lies at the point of death at the O'Connor sanatorium this morning, suffering from pleuropneumonia, which set in following an operation recently for appendicitis.

Dr. E. F. Holbrook, attending physician, says Roschken has but "one chance in a thousand" for recovery. Roschken's brother died in this city recently after jumping or falling from a second-story window.

William Roschken and his brother, Joseph, were left a large estate and the former had recently announced his plans to retire from business and tour the world after fifty years of steady business here. The closing out sale at his store has been under way for several weeks.

The Roschken family has been prominently known here for many years, their hardware store being one of the largest in the city. William Roschken has been prominent also in club circles here.

Ben Franklin is said to have introduced broom corn into the United States.

SEVEN AUTOISTS HURT.

NORTH BEND, Ore., July 2.—Seven persons were injured yesterday while en route to the Myrtle Point celebration, when the front wheels of Fred Adams' automobile buckled and the car turned a somersault. The injured: Fred Adams, 54 torn off; Hazel Davis, 11, concussion of the brain; Mrs. Kate Adams, two ribs broken; Mrs. J. P. Davis, Irene Davis, Mrs. Fred Adams and Mrs. Maude Davis, cuts and bruises.

BABE DROWNS IN BOILER.

OREGON CITY, Ore., July 2.—Laverne Stewart, aged 18 months, daughter of Mr. and Mrs. F. A. Stewart of South Highland, met death last night by drowning in a wash boiler filled with water into which she fell while her mother was out of the room.

Ben Franklin is said to have introduced broom corn into the United States.

**EBERLE IS NOW
IN COMMAND OF
PACIFIC FLEET**

Seventeen Guns Fired For
New Admiral; Seventeen
For Rodman.

SAN FRANCISCO, July 3. — Ad-
miral E. W. Eberle, who arrived here
yesterday with his wife and staff,
today assumed command of the Pa-
cific Fleet, soon to be the greatest
and most powerful aggregation of
fighting ships flying the United
States flag. Admiral Eberle relieved
Admiral Rodman and as the new
officer took over the command of
the fleet his flag was run to the
masthead of the battleship New Mex-
ico, his flag ship, and the customary
salute of seventeen guns was fired.
Admiral Rodman was given the same
salute as he relinquished command
of the vessels.

Admiral Eberle, who arrived at the
Oakland mole yesterday afternoon on
the Overland Limited from Washing-
ton, D. C., brought the word that the
Pacific Fleet is to be made the most
powerful armada in the American
navy, both in tonnage and gun-
power.

"In both tonnage and gunpower,"
said the new commander-in-chief,
"the Pacific Fleet will be more
powerful than the Atlantic Fleet. All
the heaviest ships will be in these
waters. The assignment of all oil
burning ships to the Pacific makes
a much more economical and more
homogenous fleet, both tactically and
otherwise. The question of fuel sup-
ply has become an important one to
the Navy Department, and, of
course, California has the right oil at
hand, while coal burners in the Pa-
cific Fleet sometimes have difficulty
in obtaining fuel."

Admiral Eberle was accompanied
by Rear-Admiral B. F. Hutchinson,
his chief of staff, Commander G. C.
Pegram, his secretary, Lieutenant-
Commander T. S. King, flag lieuten-
ant and Lieutenant-Commander A. H.
Tawresky, fleet radio officer. They
were met at Oakland mole by Lieut-
enant-Commander John L. McCrea,
aid to Admiral Rodman.

Other members of the staff will
arrive before the fleet assembles in
Puget Sound in about a week for a
"repair period." No visitors were al-
lowed aboard the battleship New
Mexico this morning while the cere-
mony of the transfer of the fleet
was carried out.

**Professor Kuno
Urges Aliens to
Submit to Law**

Japanese Savant At State
University Tells Com-
patriots To Register.

Until the alien poll tax is thrown
out by the courts all Japanese
should register and be prepared to
submit to the law, is the advice
given to the countrymen by Prof. P. S.
Kuno of the University of Califor-
nia. Kuno, who recently gained
prominence by charges that many of
his own countrymen were not acting
in good faith, was among the first to
register.

The university professor takes a
position contrary to that of the Jap-
anese consul. So long as the legis-
lature has passed the poll tax, he
said, and so long as the governor
has signed the bill there should be
no refusal of the aliens to register.
It is his belief that the courts will
hold that the law is contrary to
treaty provisions and that it will be
thrown out. In registering Kuno
recorded his protest.

"I do not think that most of the
Japanese of the state realize that the
alien poll tax law is really a law,"
said Kuno. "In Japan when any-
thing becomes law it is settled and
there is no argument or protest. As
I see it, until the courts decide on
this question it is law and the alien
should obey its provisions. I cannot
think, however, that the courts will
find the California law in consonance
with the treaty provisions."

**Sleeper, Awakened,
Captures Intruder**

Jake Shaffer, who resides at 527
Henry street, was awakened by
someone moving around in his bed-
room. He turned on the lights and
saw a man searching his dresser.
When he turned on the lights the
intruder ran out the door and
started for the front door.

Shaffer was following close. At
the front gate he grabbed the in-
truder and held him until the police
arrived.

When questioned by Night Captain
of Inspectors George Powers the
man gave his name as Leslie Walker.
According to the police, he was ar-
rested in 1914 by Police Inspector
Richard McSorley on a charge of
assault with a deadly weapon.

Shaffer told the police that he
would swear out a warrant today
charging Walker with burglary.

LAD DROWNS IN POOL.

NOGALES, Ariz., July 3.—Paul
Turdum, age 7, son of a wealthy
attorney, was drowned in a private
pool of a residence here yesterday.
The boy was a son of E. R. Turdum,
formerly of Cotton, Calif.

Five Small Fires, Richmond Record For July Fourth

All Blazes Trifling; Awning Set Ablaze; Grass Burns in Four Places.

RICHMOND, July 5.—Five small fires attended by nominal damage yesterday engaged the Richmond fire department. The first call came in shortly after noon from Eighth and Barnett streets, and the last call was at 7:56 last night, from Nichol and Knob streets. Both were trifling grass fires. The only blaze that caused serious alarm was when firecrackers ignited the awning of LaMoine's drug store at Sixth and Mendenhall, but this quickly was arrested by the department. Damage done was \$25. The other fires were grass spurts at Tenth and Main streets and Seventh and Chanslor streets.

On July 4, 1920, the department reported seven fires attributable to fireworks.

There is a tree at Cheppulpet, Mexico, with a trunk 118 feet 10 inches around.

Pleasanton Is Packed With Guests Over July Fourth

PLEASANTON, July 5.—Although Pleasanton turned out "en masse" and went to Livermore and participated in the big three days' program, still there were as many visitors here as though a celebration was in progress. There has been many occasions during recent months to attract visitors to this valley, but over the week-end with another holiday in sight there were more people here than at any time this season. Particularly were the camping spots crowded, especially along the Fochill road which leads into Sunol and where numerous accommodations have been placed for the convenience of those desirous of a short outing. Every place was packed and many were forced to crowd into town or find a place nearby to pitch their tents. The town camping park was more than full on Saturday and Sunday evenings and many of the late comers had to take refuge in the creek and spent the night there. Flags and bunting decorated all the business places and the Fourth, though quietly spent, did not lack in color or festive spirit. Decorated floats and automobiles, prominent

citizens and members of fraternal organizations were in the big parade at Livermore's celebration yesterday morning to assist with one of the best features of that big event. Pleasanton showed a fine spirit during the Rodeo, which was highly commended upon by the energetic citizens of the sister city, Livermore.

Miss Adelaide Brown, community nurse for this township, took possession of her new offices in the First National Bank building this morning, where the business of the Pleasanton Health Center will be hereafter transacted. The suite of rooms have been especially prepared for the needs of the district and the accommodations will be greater than those afforded by the clubrooms of the Woman's Improvement Club, where Miss Brown has had her headquarters since the center was formed a few months ago.

This week a shipment of racing stock has been made to Sacramento, where the horses will be put in shape for the races which will be run off there in connection with the State Fair. There are not more than 50 horses training at the track, since many were shipped to Reno for the races and to the East for participation there during the big season. From present reports many reservations are being received by the management of the Pleasanton training park for accommodations this fall and it is expected that the coming training season will be one of the biggest on record.

Mr. and Mrs. Charles M. Baron and little daughter are spending a few days with Mr. and Mrs. Henry Riemers of the Farmers' Hotel. Baron has recently resigned his position as manager of the Carson City store of Grey, Field & Wright and has bought an interest in a drygoods business at Oakland which he will manage. Baron has formerly with the Ellis-Pickard company of this city and has many friends in this section.

Mr. and Mrs. Eugene Strobbridge have returned from a honeymoon at Coronado and are enjoying a few days with Mr. and Mrs. Leonard Arendt, Mrs. Strobbridge's parents, before taking up their residence in Hayward.

The Misses Isabelle and Marguerite Sylvia, who were at Yosemite Lodge in the Yosemite Valley for a week, have returned home, as has Miss Marcelle Schween, who was there for two weeks enjoying a camping trip with a party of hay cutters, who made the trip by automobile.

Mazamas Will Climb Peaks of Cascades

PORTLAND, Ore., July 5.—Peaks of the Cascade mountains are to be scaled this summer by members of the Mazamas, an Oregon mountaineering club, on their annual outing. Crater Lake, in eastern Oregon, is also on the club's itinerary. Automobiles will carry the party to Crescent Lake where the first camp will be made. From Crescent Lake, Diamond Peak, a Cascade mountain, will be scaled, and Waldo Rosary and Odell lakes will be visited. The Mazamas will then hike to Diamond lake, two days away, and Old Bailey and Diamond peaks will be climbed. From Diamond Lake the mountaineers will hike to Crater Lake, where the final camp of several days will be made and whence Mount Scott and Garfield peak will be conquered.

Of sturdy, light-weight blue material and made more attractive with trimmings of red. These are just the thing for vacation wear. Value extraordinary!

Children's Gingham Dresses \$1.19

Our regular price was \$1.95. Tan blue and rose frocks of good quality gingham, with trimming touches of contrasting colors. Sizes 2 to 6 years.

Children's Aprons 69c

Aprons for the children to slip on over their clean frocks. They are of linens and beach cloth in rose, blue and tan and are cunningly made with yoke and side ties. Sizes 2 to 6 years.

Winter rain, house damp and cold, husband away, children sick —and No Coal!

THE caption gives a word picture of what might happen unless measures are taken to secure coal now.

When cold, wet weather comes—then every one demands coal. When there is sickness in the house, every hour's delay in obtaining fuel adds to the seriousness of the situation.

What are the dealers to do? Who are they to serve first when the rush time comes?

Many people have no storage facilities for more than a few sacks of coal at a time—they can't lay in a big supply.

But others have coal bins. They have little excuse for waiting until the last minute!

To say that coal will not be cheaper this year would be making a definite statement which no one but a clairvoyant would be willing to make. However, there is no indication that prices will be lower—in fact the opposite trend of prices is forecasted.

The Coal Dealers urge you to lay in, at least a part of your coal supply now.

The price has been lowered \$1.00 a ton on coal bought now for immediate delivery.

Be on the safe side. Store away some coal while you can. Be snug and ship-shape for the winter.

THE COAL DEALERS of ALAMEDA COUNTY

SLEEPY WORKERS GUARD NEW DAM CHECKING FLOOD

Yuma Valley Loss Now Placed At \$1,000,000 As Result of River Overflow.

SOMERTON, Ariz., July 5.—The Yuma Valley flood situation was reported unchanged early this morning. A weary-eyed army of 1000 valley ranchers and laborers pressed into service on government order, believed today that a temporary levee system they had constructed since the main levee gave way Friday morning, would hold back the waters until the original 400-yard break could be repaired. The damage estimate remained unchanged at \$1,000,000.

Princess Mary May Wed Lord Apsley

LONDON, July 5.—Court gossip has announced the betrothal of the son of the Earl of Bathurst. The report cannot be confirmed but it is learned that during the polo game at Hurlingham, when the Americans were playing the British, Princess Marie Louise, a cousin of King George, told friends that the betrothal occurred last week at Windsor Castle, where Lord Apsley was a guest for the Ascot races. Queen Mary is said highly to approve the match. She likes Lord Apsley, who is a typical young English aristocrat and a tall, scholarly young man who is worthy to be the escort of the only daughter of the royal house. The rumored bridegroom is 26 years old, two years older than the Princess.

QUAINT, GRIZZLED MOONSHINERS, 200 OF 'EM, ON TRIAL

SANDY HOOK, Ky., July 5.—Sandy Hook became the moonshiners' Mecca today as giant Hill Billies, patiently plodded to town, to be tried for practicing their age-old custom of distilling. The quaint, grizzled men, 200 of whom will be tried before Circuit Judge A. N. Frisco tomorrow, charged with operating illicit stills, considered the interruption only one of the little irritations of modern civilization.

"If they start by convicting us, they'll have to put most every body in this county in jail," said one of the early arrivals among the accused. "Makin' liquor around here is about as old as these hills." State troopers, equipped with carbines and "service" revolvers, paced the village's main thoroughfare. Sentinels were established around the little courtroom. Troopers intended to assure that the mountaineers offered no protest against questioning regarding the operation of hidden stills. Despatch of thirty-five Kentucky guards, new recruits to the command of Lieutenant See surprised the natives when they detained here early yesterday. The troopers were ready to try to subvert the hill men for additional stills or to seek out any of the accused who hesitate to stand trial.

Newly-Weds To Make Home At Turlock

TURLOCK, July 5.—The wedding of Miss Frances Porterfield and Virgil T. Wells was solemnized at the home of the bride's mother, Mrs.

Bessie Porterfield, in the presence of only a few intimate friends. The Rev. C. R. Eastman officiated. Mr. and Mrs. Wells are very popular among the younger set. After a month's honeymoon they will return to make Turlock their home.

CIGAR STORE ROBBERED

MANTECA, July 5.—Burglars made a big haul at the Chaney pool hall and tobacco store. They took \$12 from the till and over \$200 worth of cigars, cigarettes and tobacco. Only the finest brands

were taken. Attempt to break into the safe failed. The stuff was carried away in an automobile. German parents sometimes change the name of their baby if it is seriously ill.

CEREMONIES TO HONOR SOLDIER DEAD AND FLAG

Standard Carried Overseas by
Engineers To Be Used in
Program Sunday.

Joint ceremonies will be held Sunday to pay a tribute to America's soldier dead and to the American flag carried overseas by Company A, Eighteenth Engineers. The ceremonies will be held under the auspices of Claremont Parlor, Native Sons of the Golden West, and will take place in Golden Gate playground, Sixty-third street and San Pablo avenue.

The services will be in celebration of the second anniversary of the return to Claremont Parlor of the American flag, loaned to Company A, Eighteenth Engineers, and taken by them to France during the war. It is said that this flag is the only fractionally-owned standard taken overseas by an American army unit during the war.

In the course of the ceremonies Claremont Parlor will plant a redwood tree in the playground in memory of those who lost their lives in the war. Native Sons in large numbers from all parts of the bay district will attend the ceremony, it is said. Among the officials invited to be present are Mayor John L. Davis and Sheriff Frank Barnett. The speaker of the day will be former Governor George C. Pardee. Company A, Eighteenth Engineers, will be represented by Captain Frank Darrow, commander of that organization. Previous to the ceremonies there will be a parade in the Golden Gate district. Harry S. Williams is to be grand marshal. The chairman of the arrangements committee for the ceremonies is Harry Burns of Claremont Parlor.

Parisian Uses Treaty In Civil Court Fight

PARIS, July 5.—A curious case wherein the Treaty of Versailles and its reparation clauses are mentioned is at present before French courts. Duke de Vence in 1912 bought a house in the Avenue de Wagram in Paris, the purchase carrying with it a mortgage of 900,000 francs held by a Berlin firm. The duke assumed the mortgage and continued to pay interest until the outbreak of the war.

The Berlin company today claims the whole house. The duke now refuses to either pay the interest or give up the house, stating that "he had a big property, estimated at three million francs, at Caulaincourt in the North which was destroyed by the German army."

Russian Railways Undergoing Repairs

RIGA, July 5.—According to the Moscow Tsvetka, 700 miles of railway track are to be torn up in Russia so that the material may be used in repairs and new construction of important lines under the new program which ordains that the trunk lines shall be put into a state of efficiency.

The plans are to construct, or complete the construction of an aggregate of about 3700 miles of track, one-half of which the rails have already been laid. Some of the existing lines will be completely eliminated. No further purchases of steel rails are to be made abroad this year, it is announced.

A WOMAN WITH A PRETTY COMPLEXION

Always Appears Charming

Your complexion makes or mars your personality. If you have a clear, smooth, velvety skin, free of pimples and other unsightly blemishes, you need never fear the impression you make on all you meet. Some women are endowed by nature with a clear, smooth skin; others not so fortunate can acquire this beauty by the use of Black and White Beauty Soap. Go to your favorite drug or department store and buy a bar of Black and White Beauty Soap and a cake of Black and White Soap. Use it according to directions and you will be delighted with results. Beauty Bleach is an exquisitely perfumed flesh-light cream. Use it according to directions and you will be greatly pleased.

Literature for Black and White Beauty Bleach, as well as samples of Talcum and Face Powder, sent free on request.

Clip and mail this to Black and White, Box 1507, Memphis, Tenn.

Felt Faint from Bunion Fairfoot Brought Instant Relief

"I suffered much severe pain from my bunion that almost forced me to quit my work. I was told to use instant relief. Would not believe it to be relief of such misery."—Mrs. A. G. Nisley.

Try It for YOUR Bunion

If you, like Mrs. Nisley, are a sufferer from a painful bunion, you can secure quick relief with the wonderful Fairfoot. You will be surprised to see how the pain vanishes and the swelling goes down. Relief usually comes within 2 hours. Money returned if you are not satisfied.

Beginning Tomorrow Morning at Nine o'Clock—a Gigantic

Manufacturers' Outlet Shoe Sale

\$80,000.00 Worth of Women's and Children's High Grade Footwear Involved

—Footwear from America's best makers! Oakland has not known such a shoe event in years, in fact it is the greatest shoe sale we have ever attempted. Fully \$80,000 worth of high-grade footwear bought from manufacturers of note at a fraction of the real value of each pair. We entered the market at a time when the makers wanted to turn their stocks into ready money—this great July footwear event is the answer!

Included are the Newest Styles—
Many are Advance Fall Models

—Only a few of the many lots are listed here—you can learn more about them from a visit to our display windows or a try-on in the store. High and low heel models in every wanted style.

—It is your opportunity to purchase footwear at prices that will surpass the values of pre-war days—it is our opportunity to put over a sale of such magnitude that it will establish Kahn's in Oakland as the leading shoe house for many months to come. And above everything else, it will gain the goodwill of many new customers and satisfy our old customers—which after all is the ultimate idea involved. Just remember that the values are unsurpassed.

AMPLE ROOM IN YOSEMITE PARK FOR ALL VISITORS

Temporary Ban On Travel by
Automobile Lifted by
Park Officials.

YOSEMITE, Cal., July 3.—There is ample room in Yosemite National Park, including Yosemite Valley, to take care of all who want to spend their vacation in the Sierras. Wild reports, probably arising from the temporary embargo on automobile travel, now lifted, have caused much amusement among visitors here.

"Why, we were told you couldn't even buy groceries," remarked one member of a camping party, who had packed foodstuffs all the way from Los Angeles.

The embargo, applied only to automobile travel, did not affect anybody coming in by train, was in effect only a few days and caused more than a week ago, but many persons still think that Yosemite is crowded to such an extent that they ought to go elsewhere for their outing.

There is no need for anybody to stay away from Yosemite, according to authoritative statements, for all the hotels have ample room to take care of any demand and visitors are few persons camping in Yosemite Valley now than is usual at this time of the year. The high Sierra country is just opening up, affording access to the most beautiful sections of the Park, where mountain climbing, fishing and hiking, are at their best in midsummer and autumn. Many persons now in Yosemite Valley will move up to Lake Tenaya, Tuolumne Meadows, Merced Lake and other beauty spots, still further decreasing the valley's population.

Yosemite started out this year to beat Yellowstone's attendance record and to take first place among the nation's scenic parks. The few days of embargo made that impossible, unless there is good travel to Yosemite in August and September. Local officials are hoping that nobody will forego a trip to Yosemite because of a single week of congested conditions, which has long since been remedied.

Anniversary Number
Naval Paper Issued
Celebrating the completing of a year of existence as the United States Training Station paper on Yerba Buena Island, the Golden Gate Sentinel has just issued its anniversary number. Somewhat unique with this special number appeared Volume 3, No. 1 of publication. Among the many photographic illustrations in the anniversary number are 25 views of Captain Henry B. Price, commandant of the station, Commander John E. Pond, executive officer and captain of the yard, Captain Charles B. Fiske (M. C.), senior medical officer, and other officers in charge of various departments.

The photographs also show glimpses of the station, the main barracks, Camp Farragut, Samp Sims, the Rodman Club stage, pictures of the basketball team, baseball team, rowing crew, etc.

Byron E. Miller, C. Y., is editor-in-chief. All told there are six members of the Sentinel staff.

Station organization, the hospital corps training school, athletic and other important features of life in the station are handled in special articles.

Largest Pig's Skin
Placed On Exhibition
CHARLESTON, W. Va., July 3.—What is said to be the largest pig ever raised in West Virginia has been mounted and is now on display in the exhibition hall of the Department of Agriculture.

The pig, before it was stuffed, was 48 inches high, 84 inches long and weighed 400 pounds, according to its owner, S. S. Ball, of Ravenswood.

BEER SENT TO CUBA.
BOSTON, July 3.—Cuba may be the wettest country in the world, but native Cubans still like American-made beer, as evidenced by the fact that fifteen hundred large packages of malts were shipped to the U. S. Fruit steamer San Pablo, which sailed for Havana recently. The cargo is the property of American brewing houses and will be changed into a little stronger than one-half of one percent beverage by the addition of water and a few other ingredients.

TWO ILL
TO WORK

A Mother Tells How Her Daughter
Was Made Well Again by Lydia E.
Pinkham's Vegetable Compound

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble, and before they are hardly a month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and was regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHEN, 4084 N. Fairhill St., Philadelphia, Pa.

Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged systems, and before they are hardly a month, they develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of women's ills. Every mother who has a daughter suffering from such symptoms should profit by the experience of Mrs. Eichen and give her Lydia E. Pinkham's Vegetable Compound.

ROTARIANS PUT WREATH ON TOMB OF FRENCH POILU
PARIS, July 5.—More than five hundred of the visiting Rotary club delegates and their wives went to the graves of the unknown soldier in the Place d'Alsace today and stood by silently while Dr. Crawford Y. McCullough, of Port William, Ont., president of the International Rotarian organization, laid a wreath on the tomb. Dr. McCullough made a brief address in which he expressed the gratitude of the Rotarians for the service to humanity of which the unknown soldier was symbolic. The women members of the party then formed into line and scattered flowers on the grave as they passed. The visiting officers of the organizations were later received by Marshal Joffre in the Ecole Militaire. In the evening the visitors were given a reception by the municipality of Paris.

Small Parade Due To Hot Weather, Claim
NEW YORK, July 5.—"Wet" leaders today attributed to the excessively hot weather the poor showing made by the anti-prohibition parade on the Fourth. The "old guard" alone turned out. It is estimated that there were between 15,000 and 16,000 persons in line, including about 2500 women. Mayor Hylan reviewed the parade.

PATRIOTISM IS URGED IN U. S. PUBLIC SCHOOLS
Superintendent of Oakland Schools Takes in New Move At Des Moines.

Special to The TRIBUNE.
DES MOINES, Ia., July 5.—All teachers in public, private and parochial schools should be American citizens and take the oath of allegiance, and English should be the basic language in all educational institutions. It was recommended by a committee today at the fifty-ninth annual convention of the National Education Association, which opened in Des Moines, Ia., with 5000 delegates in attendance.

Report to the convention was made after the Americanization reorganization committee, as arranged by Fred M. Hunter, superintendent of schools in Oakland and president of the National Education Association, had met with the national Americanization commission of the American Legion. According to President Hunter's plans, the Education Association will work with the American Legion throughout the United States in impressing the value of patriotism and love of country on pupils and students of the different kinds of schools.

TEACH PATRIOTISM.
Greater emphasis should be placed on the teaching of patriotism through history and civics, it was recommended by the committee, which reported further to the convention body that school attendance must be compulsory through high school age. Better financial support of the entire school system of the United States was reported by the financial committee in addition to better training for American children in the customs and traditions of the nation. The citizens' resolution committee is considering favorably a request of Lewis B. Avery, assistant superintendent of schools of Oakland, to endorse a course of study for public schools dealing with purposes of taxes, the levying and disbursing of taxes and standards to determine proper claims for participation in public funds.

The nation-wide reorganized educational program, as outlined by President Hunter is likely to be adopted as official program of the National Education Association.

EASTBAY DELEGATES.
Delegates from Oakland to the convention, in addition to President Hunter, include J. Fred Anderson, chairman of the Americanization committee in the Oakland schools; Alice B. Bekley, Margaret C. Irvan, Nellie Jacobsen, Mrs. I. L. Morgan, Jay B. Nash, superintendent of the Oakland recreation department; Alpheus Petersen, A. C. Petersen and Helen Price.

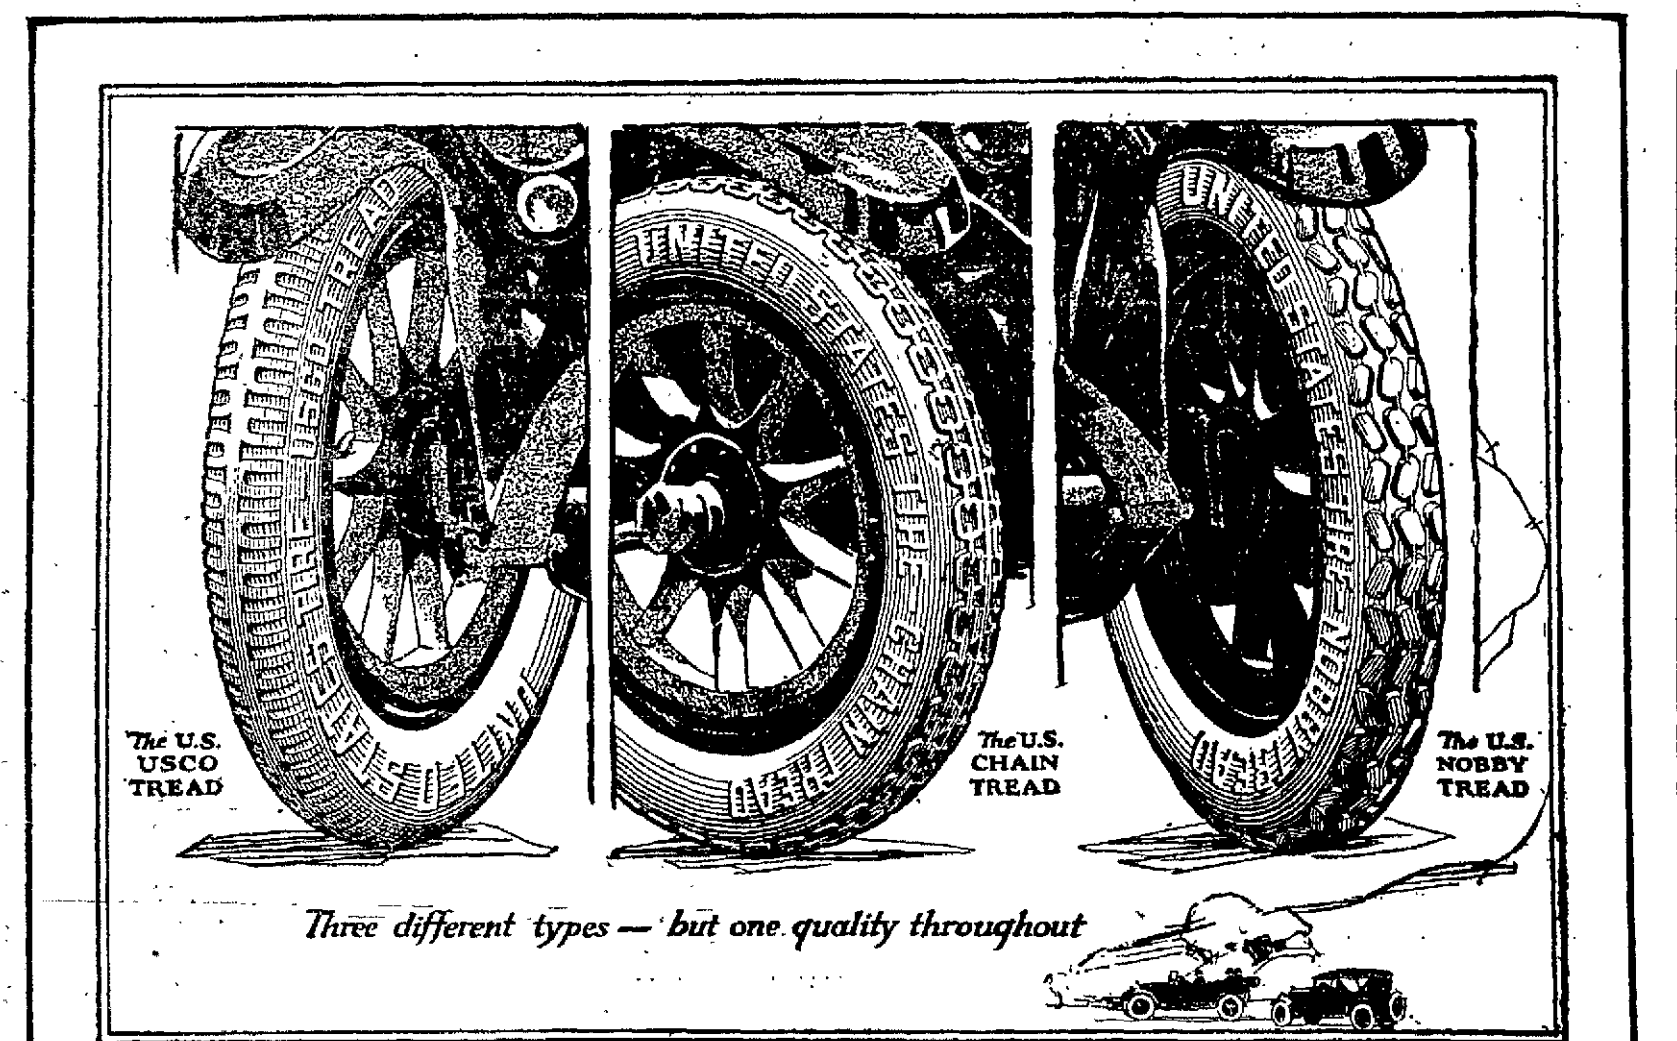

Berkeley delegates include C. C. Whitten, Gail Mooney, Elizabeth Kelley, Sylvia Deley and Indiana of the second day of the convention were that a woman president would succeed Hunter as head of the national organization. Prominent candidates are Olive Jones, New York City; Charles Williams, Memphis, Tenn.; Cora W. Stewart, Frankfort, Ky., and William Bishop Owen, Chicago.

President Hunter was publicly commended for the placing of seventy women on the program as speakers during the convention, many of whom were classroom teachers. The delegates were guests last night at a reception given by Governor N. E. Kendall and state officials at the state house. Officials

of the National Education Association were guests of honor. Miss Catherine D. Blake of New York City, chairman of a committee on changes needed in the elementary schools, told the teachers that most of the fairy stories and Mother Goose rhymes are absurd. Furthermore, she and her committee will recommend to the convention of the National Education Association that they be dropped and tales about real people be substituted for the make-believe ones.

There are other ideas in the report of the curriculum committee which also tend to revise the subjects which the Johnnies and Marys will study in the future. In history, for instance, the stories of kings and generals are to be minimized and new discoveries, new inventions and new ideas are to be emphasized. Training for parenthood is considered essential. Toy typewriters and miniature machinery are recommended for use in the earlier grades. Shopwork and cooking should be taught not only in one or two grades, but throughout the entire school life of the child, it is urged. Visual instruction beats oral instruction every time, the report says.

OAKLAND TRIBUNE, Oakland's greatest evening newspaper.

Three different types — but one quality throughout

Much waste in fabric tires — no need of it

THERE are four or five million car owners in this country using fabric tires.

When they see themselves being made a target for the sale of "odd lots", "discount offers", "retreads" and "seconds" — what do they think?

You can hardly blame quality seekers if this kind of situation is getting-on their nerves.

Some people seem to feel that the spread of cord tires has made tire-makers and tire-dealers indifferent about fabric quality.

Others have the idea that fabric tires get less attention because they run to smaller sizes.

The makers of United States Tires would like to go on record as to how they feel about it.

They are engaged in serving people.

They build the most complete line of fabric tires in the world.

This year "Nobby", "Usco" and "Chain" Tread tires are more universally popular than ever before. Because they satisfy a legitimate need for fabric quality.

Neither the size of the tire nor the kind of tire has anything to do with U. S. Tire standards.

Back of every Fabric Tire bearing the U. S. name stands the same quality that has made U. S. Royal Cords the outstanding tire.

This is the logical stand for the oldest and largest rubber organization to take.

It builds by policy — or doesn't build at all.

As people say everywhere

This Week's Beauty Help

It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of canthrox, which can be obtained from any druggist, in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Advertisement.

ASK THE MAN WHO OWNS ONE.

**Bolsheviks Flayed
By Socialist Leader**
GLASGOW, July 5.—In current issue of Forward the Glasgow Labor weekly, Ramsay MacDonald, a Socialist labor leader who at one time was accounted an extremist, and was even accused of being a

Bolshevik by some of his enemies, attacks the Russian Bolsheviks. "I see," he writes, "that the campaign of calumny and untruthfulness designed to cover up the iniquity of the Bolshevik tyranny in Georgia is being continued. My readers can take it without a tremor of hesitancy that Georgia was overrun by an army when it was too weak to fight suc-

cessfully and that it is today being held down by force and by committees of directors backed by the Eleventh Army of the Moscow republic. "Georgia today is governed by a revolutionary committee nominated by the Council of Commissaries set up by the army of invasion toward the end of February last. They have

destroyed every vestige of representative government including municipal councils and trade union organizations like the Tiflis Soviet which I saw in working operation. "In Batum, Kutais and Poti there are one thousand in jail for being Socialists or Trade Unionists. Freedom of press and speech does not exist."

FIREHOUSE BURNS WHILE FIREMEN PLAY PINOCHLE

PORTLAND, Ore., July 5.—The gang on duty at the nice new

fire station at Fourth and Taylor streets was playing pinochle. "The station's on fire," shouted a mere citizen, bursting in and rudely interrupting the game. "G'wan," said the dealer, who was melding a hundred aces. "This is the fourth of July, not April Fool."

Insisted the citizen. The fireman waved him away. Then a fireman—one of those fellows who can't stay away from the stations on days off—rushed in. "Pull the engine out, boys. The room's ablaze." That warning was sufficient to spur the cardsters into action.

Firemen don't usually fob each other. When the blaze finally was subdued, it was found that the damage was about \$1000. A defective flue was given as the cause. English footmen formed one of the earliest labor unions in 1700.

JULY CLEARANCE SALE

**An Absolute Clearance of Every Spring and Summer
Garment in the House at Prices Newly Reduced**

July marks the last month of the Spring season—the month when we must clear our stock rooms of everything that has been offered during the present season. Not that the garments are unseasonable—not one is more than sixty days old, and many have been in less than a week. But Fall merchandise will be coming in soon, and we must have our stock rooms clear. So we have reduced the prices on all these present season garments. We have arranged them in groups according to values (and note the values offered!). We now place them on sale at tremendous reductions for our great July Clearance Sale.

Manteca Showman Accused of Theft

MANTECA, July 5.—Charging embezzlement, J. Gluck, manager of the Manteca hotel, has sworn to a warrant for the arrest of Harry Eggleston, whom he accuses of making off with \$65. Gluck had the concessions of the three-day celebration at Salmon's Grove and Eggleston managed them for him. He dropped out of sight in the night. The accused came here recently and nothing is known of his past.

Car Brushes Bridge; Woman Loses Arm

SAN BERNARDINO, July 5.—Mrs. Charles F. Wiley, 59, of Los Angeles, is near death at a local hospital from a severe wound in an accident. A motor bus in which she was riding brushed against the side of a bridge near here late today. Her arm, which was resting on the outside of the car, was severed at a point near her shoulder. The arm dropped into the river bed below.

TWO SOLDIERS INJURED

COBLENZ, July 5 (By the Associated Press).—Private Charles Sadowski, Fifteenth Infantry, was severely burned when firecrackers he was carrying in his blouse exploded, and Corporal Bert Murry of headquarters detachment received burns about the eyes and face.

U. S. Bears Equal Burden, Harvey Asserts in London

LONDON, July 5 (By the Associated Press).—Diplomatic representatives of more than thirty foreign governments were guests tonight at the annual Independence Day dinner of the American Society of London. Ambassador Harvey was the guest of honor.

Lord Lee of Fareham, First Lord of the Admiralty, toasting the guest, referred to Harvey as "a foreign envoy to whom the muzzle of diplomacy had not been obtrusive." He said Britain and America could expect from him "a frank and candid comment upon Anglo-American relations."

TOURING MADE SAFE

SAN BERNARDINO, July 5.—According to county traffic officers, 25,000 people came down from the rim of the world highway over four routes yesterday afternoon and there was only one minor accident. The travel broke all records in the San Bernardino mountains. According to Jay Boone, chief traffic officer there, were 5000 automobiles at Big Bear Lake. Six mountain fires, caused by campers, were put out by forest rangers without serious damage.

Referring, in his reply, to the revolt of American colonies, Ambassador Harvey declared:

"Whether the territory comprising the United States could have been retained, is wholly speculative. But one fact is certain—if George III had issued a proclamation even approximating in eloquent sincerity and appealing force that entered the ear of George V. in his faithful endeavor to reconcile a nation, there would have been no ringing of bells in Philadelphia 145 years ago this night, nor for many years thereafter."

FALSE IMPRESSIONS

Ambassador Harvey declared the mutual helpfulness which all desired could not be realized until two grave misapprehensions had been removed, one which pervaded Europe respecting the United States, and the other which permeated the United States as to Europe, and continued:

"The two combined appear to constitute the chief barrier to full and effective play of co-operation based upon confidence and understanding. I find in Europe the common impression that the United States alone among the nations of the world, is today a land of milk and

honey whose people not only are universally prosperous, though recalcitrantly discontented, but are rich beyond the traditional dreams of avarice. You have only to supplement the fancy with a suspicion which I find not wholly lacking, that all this opulence and this happiness are direct results of the great war, to account for the wholly natural sense of resentment."

"DID AMERICA PROFIT?"

"What are the facts? Did the United States really profit from the war to such a degree as to make the lives she sacrificed seem to the cynical and sordid mind relatively insignificant?"

Ambassador Harvey proceeded to cite the tremendously increased national debt, the Congressional appropriations for 1920 and the heavy income taxation. He added:

"In dollars, the cost to America of her participation in the war, when finally computed, will fall not so very far short of the entire indemnity upon Germany. I make no comparisons. There has been too much of that already. Surely no good can come now, when we all are striving to get together in common purpose for the common weal, from disputing over the relative sizes of the contributions to the great cause."

less perilous, not emulate their idiotic example."

U. S. BEARS BURDENS.

The ambassador said the staggering present cost and the great price must be paid by the next generation from those countries which had been so pitilessly denuded of the flower of their youth, who were relied upon to carry on. He continued:

"Nothing could be further from my thought or more repugnant to the instinct of any American than to measure money against men. My sole purpose is to win fair consideration from any who may have overlooked the fact that the United States, along with Europe, has her full share of material burdens to bear for scores of years, in addition to her grief at the incalculably greater loss of those who perished in the service of their country."

Harvey referred to the American relief work during and following the war, which, he said, "cannot fail to live forever as one of the finest achievements of history." He continued:

"The second misapprehension to which I referred is that of my own countrymen, who have been led to doubt that the peoples of Europe have been doing the utmost for themselves before seeking help. I have to confess that before I left home I held somewhat to that surmise myself; I do so no longer. The last two months I have not heard one complaining word nor received

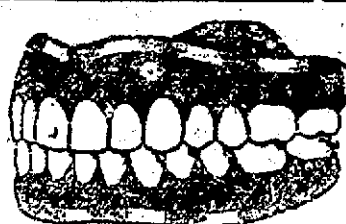

a single request for benefaction. It is not charity but opportunity they crave."

TOUCHES ON DISARMING.

"Gladly I pay the highest tribute to the courage and pride of those sorely smitten people. Already the better understanding between Great Britain and the United States has achieved one far-reaching result. For the first time in history the turbulent Atlantic has become as a mill pond and has practically been eliminated from consideration of danger so far as naval warfare is concerned. There is ground for hope, moreover, that whatever apprehensions exist of perilous possibilities on the Pacific may be dispelled sooner than is commonly anticipated."

"When, if at all, that splendid consummation shall have been attained in response to the apparently universal desire, disarmament will follow inevitably and peace on earth will be assured for years, and maybe forever."

You fellows who have always wanted a BLACK BEAUTY BIKE—think of the fun of bike-hiking this Summer on your own Black Beauty—think of the ways in which you can make spending money when you have a regular wheel. NOW IS YOUR CHANCE—get one of these \$65 brand new, completely equipped Black Beauties. A little effort IS ALL that is necessary. But get on the job—GET YOUR WHEEL RIGHT AWAY! START TODAY.

Come in at once and get full details on how to get one of the famous \$65.00 BLACK BEAUTY bicycles without paying or collecting any money.

Every Boy and Girl,
Man or Woman Can
Secure This Bicycle

through the special offer
of the Oakland Tribune
from July 1 to October 1,
1921. DO NOT WAIT,
COME IN NOW.

Myrtle says: "I am going to have a Black Beauty Bike as well as my brother, Tommy."

— GIRLS —

Don't let the boys get away with all these Black Beauty Bicycles. Remember there is a beautiful Black Beauty Model made especially for girls.

The Black Beauty Bicycle

leads the world as the best built, most serviceable bicycle obtainable. Completely equipped --- all ready to jump on and pedal away

Every bicycle guaranteed for five years.

Six months insurance policy to protect your wheel.

—AND LOOK AT SOME OF THE SPECIAL FEATURES ON THE BLACK BEAUTY—NOT ON ANY OTHER WHEEL—

Electric Delta Headlight.
Tool and Battery Tank.

Tires—Firestone blue top with white side wall.

High Compression Pump.

Coaster Brake—Latest New Departure model.

Saddle—Black Beauty motorbike No. 2 special.

Handle Bars—Kelly made motor bike type.

Grips—Special rubber finger grips—they fit the fingers.

Mud Guards—Large drop side mud guards with double braces.

Pedals—Black Beauty rubber motor bike pedals—oil and dustproof.

Six Months Free Repair Service at local agent of Black Beauty Bicycle.

The Haverford Cycle Co. make their own bicycle—the Black Beauty—and stand behind every guarantee.

Firecracker Causes Loss of Two Homes

TODAY AND TOMORROW (Wednesday)

CIVIL SERVICE EXAMINATIONS SET FOR JULY 8

SAN JOSE, July 5.—Civil service examinations for the purpose of establishing eligible lists for the police and fire departments of this city will be held Friday, July 8, according to an announcement today by City Clerk John J. Lynch who is also clerk of the civil service commission. The examinations will be composed of physical, mental and written tests and in order to qualify for the eligible list the candidate must have an average of 70 per cent for certification.

The physical and medical tests to be given are similar to those given in San Francisco and Los Angeles, but the mental tests embrace the very latest standardized mental and pedagogical tests, which are conducted by Miss Davis of the State Normal School here.

The age limit for applicants is from 21 to 35 years and the charter also prescribes a minimum weight for both policemen and firemen of 150 pounds.

A review of recent appointments indicates that preference is given to men residing in this city in the passing out of the positions.

The entrance salary in each department is \$120 per month, with one day off in seven and two weeks off with pay each year. There is opportunity for promotion after six months of probationary service, with a \$7.50 increase for firemen and a \$10 increase for policemen after one year of service, with a similar increase for each again at the end of the second year of service in the departments.

Peat Fire Cause Of Heavy Loss Near Knightsen

KNIGHTSEN, July 5.—Fire here destroyed 250 acres of grain which had just been harvested but not removed from the fields. The property burned was owned by the Mitchell Estate and was leased by J. A. Cantrell of this place. In addition to the barley lost, a harvester owned by J. Fossatti was burned. Two tractors, one owned by Everett Ligonie and one by Henry Sellers, were badly scorched, but saved. Fire fighters from Knightsen, Brentwood and Oakley combatted the flames until late afternoon, when it was under control.

It is presumed that the fire started from a peat fire in the levee which it is said has been smoldering for the past three months.

Flood Brings Fertilizer Bungalow, Farmer

LA JUNTA, Colo., July 5.—Not all in the path of the recent floodwaters of the Arkansas river were destroyed. A bungalow, the property of a ranchman of this section, who died recently, was about \$1000 when it became the property of the state. The floodwaters deposited several inches of rich soil on its large beet field. The farmer did not damage the beets. Then the trickle Arkansas washed a five-room modern bungalow onto Woods farm. The house is completely furnished and the owner has been unable to find the owner.

Underground Blaze Burns Three Weeks

BLACK DIAMOND, Wash., July 5.—On the third level of a black diamond coal mine, the eleventh level of which, 555 feet down, is said to be the deepest in the world, a fire broke out three weeks ago. It was finally brought under control. The fire was caused by a gas explosion. No lives were menaced when one level of the mine turned into flame, for the mine was deserted. The fire has been left idle by a strike of some months ago. A concrete wall was built in the mine in an effort to smother the blaze.

BUSINESS BANQUET

RICHMOND, July 5.—The Richmond Business Men's Association will hold its monthly banquet at the Richmond clubhouse on next Thursday evening. Plans for the event are being prepared by Lou W. Schroeder, who is chairman of the committee for this month.

The Chronicles of a Flappper -- By Donahey

Health Center in Richmond to Be Planned Tonight

RICHMOND, July 5.—The health center committee of Richmond Chapter of the Red Cross will meet tonight to decide its course of action looking to the establishment of the health center this year.

It is expected that a program will be outlined, whereby the city and the county will be asked to co-operate with the Red Cross in financing various portions of the health center plan. It is probable that the city will be asked to provide funds for a nurse, or to finance a clinic and dispensary, while the Red Cross will bear a considerable portion of the cost of the clinic and dispensary and take over the administration of the health center. The county will probably be asked to establish a branch of the county hospital here. The Red Cross has already secured a favorable recommendation from the Grand Jury.

The city council is sitting as a board of equalization this week and the plan adopted by the Red Cross committee at the meeting tonight will be submitted to that body for consideration in preparing the budget.

Harry Marcuse is chairman of the health center committee of the Red Cross.

CONCERT ON FOURTH

MODESTO, July 5.—Little was done here in the way of Fourth of July celebration. The Modesto Boys Band, led by Prof. W. W. Higgins, put on a free open-air concert and a program of sports in the court house park in the afternoon. Another concert in the evening ended the affair.

When There's Smoke There's Firewater

FORT MORGAN, Colo., July 5.—Trailing down tiny wisps of smoke that at first were believed to be rising from an incipient forest fire, county officers and Colorado rangers discovered the most elaborately camouflaged still ever seized in this region in a ravine five miles north of this city.

The officers were driving along the road near the hidden still when they first caught sight of the smoke. Investigation disclosed the still, which had been covered with boards and camouflaged with sand, sod and vines.

Twelve barrels of illicit whiskey were confiscated by the officers and a large truck was necessary to haul in the apparatus seized. The copper container had a capacity of nearly fifty gallons, and the still is said to have been producing several hundred gallons of liquor daily.

A man who was busy making the "moonshine" when the officers arrived was put under arrest.

Cook Will Recover After Inhaling Gas

Found lying on the bed in a gas-filled room, following what had appeared to be an attempt to end his life, Peter Braun, a cook of 1913 Webster street, was taken to the Emergency hospital today. It was announced that he will recover.

Braun has been ill for some weeks and had become despondent. This morning his wife, Mrs. Mabel Braun, who lives in an adjoining rooming house at 1913 Webster street, went to visit her husband. At the door she smelled gas and called the landlady, Mrs. J. B. Torrance, who notified the police. Upon arrival the police broke down the door and carried out the man, who was then in an unconscious condition.

Petaluma News

PETALUMA, July 5.—George B. Murphy of the tariff committee of the Petaluma Chamber of Commerce has received the following letter from Knox Boudle, relative to the egg tariff:

Washington, July 3, 1921

George B. Murphy, Petaluma, Cal.

Have consulted with Congressman Len and Chairman Free as to the best procedure. The House Committee on Ways and Means has been instructed to make amendments to correcting mistakes and omissions. Congressman Hawley informs Len that it will be difficult to persuade the committee to allow six cents on shell eggs and advises against our attempting further. California delegates meet on Tuesday. You can rest assured that I will do everything possible to obtain better rates from the House.

KNOX BODLE.

The following Petaluma men were drawn to serve on the grand jury of Sonoma county and requested to appear in the Superior Court, Santa Rosa, Tuesday, July 5: M. Vossen, H. C. Schutt, W. A. Tough, W. J. Frakes, H. P. Vogensen, G. Ott, J. Frakes.

Wheat Is Rushed To Hickman Elevator

HICKMAN, July 5.—Farmers are finding the recently finished grain elevator here such a convenience that a night shift has been put on. Even at 11 o'clock the elevator is waiting to be emptied and great loads are coming in daily from the big farms. The farmer gets his grain promptly graded, and his sacks are returned in share for another season's use.

Vallejo Notes

VALLEJO, July 5.—With the return of the men to Mare Island this morning the work on the California and Montana was resumed. It is believed that the delay in the lay-off caused by lack of funds will make any change in the completion date on the battleship California.

The supply department at Mare Island won first prize for the most attractive float in the big parade held in this city yesterday. The float was designed and built at Mare Island.

Yard officers stated today that they did not expect the Pyro to leave for Bremerton until some time next week. Failure of the navy yard workmen to do the job Saturday and Monday is one of the principal reasons for the delay.

The Midway, between the city and Benicia, was visited by prohibition representatives from San Francisco headquarters Sunday night, and it is stated that liquor would be seized. The owner of the Midway, Len Figueroa, was instructed to appear before the Federal court at San Francisco tomorrow morning.

Seaplanes 3, 7, 8, 10 and 11 visited here on Monday from Sausalito. The planes flew over the town and navy yard for nearly an hour before returning to the lower bay base.

The Fourth of July at Mare Island was a day of the most interesting men from the camps and ships of war came over to town and participated in the big fire here.

San Jose Vital Statistics

SAN JOSE, July 5.—The following vital statistics were recorded in this city today:

DIED:

MANUEL—In San Jose, Calif., July 4, 1921, Manuel, a native of Italy, aged 75, father of Attilio, Angelo, Fernando and Ussal Manuel and Mrs. J. Regoli, a native of Italy, aged 75.

PRICE—In San Jose, Calif., July 4, 1921, Lavinia M. Price, widow of the late F. M. Price, a native of Michigan, aged 80 years and 8 months.

ROSS—In Mountain View, Calif., July 4, 1921, Frank P. Ross, beloved husband of Minnie P. Ross, loving father of Minnie, Mary and Annie Ross, brother of Manuel P. Ross of San Francisco and Joseph P. Ross of Sunnyvale, a native of the Azores islands, aged 55 years.

LABOR LEADER IS CANDIDATE FOR COMMISSIONER

Walter G. Mathewson Expected By Friends To Succeed McLaughlin.

SAN JOSE, July 5.—Walter G. Mathewson, president of the local Building Trades Council and one of the labor leaders in California, is being groomed by his friends in this city for the position of state labor commissioner to succeed John P. McLaughlin, who has been appointed internal revenue commissioner by President Harding.

Los Angeles has a candidate in the person of Seth Brown, but Mathewson is said to be exceedingly strong with many men close to Governor Stephens who will make the appointment.

Mathewson has so far refused to comment on the statements concerning his candidacy. He is neither a day or a year from being a candidate. His friends, however, declare the local labor leader is in a receptive mood in case the appointment is offered. The board dismissed in 1917 looked for at an early date, according to those close to the governor and Mathewson's friends are sending a string of telegrams to the governor in behalf of Mathewson's candidacy.

FRUIT STRIPPED FROM ORCHARDS BY FREAK GALE

LODI, July 5.—The terrific and unprecedented wind which swept over this part of the state yesterday, did considerable damage to fruit crops, besides injuring grapes to some extent. The wind, reaching high velocity, was extremely hot and, besides filling the air of the entire valley with dust, thrashed the branches of fruit trees to such an extent that great quantities of fruit were blown off. Not only was this indicated in this district, but from the Walnut Grove, Thornton, Manteca, Escalon, Tracy, Lodi, Newman and Patterson districts come similar reports. The damage felt far up in the mountains, report returning Lodi.

A few buckets of water, had they been at hand, declare B. H. Bond and George Parkinson, who discovered the blaze, which cost Lodi \$200,000, might have extinguished the fire.

They state that when they found the pile of cut strips ablaze, outside of the Earl Fruit Company's packing shed, the fire was of small proportions, but, having no water, tried to pull the pile of strips apart, hoping to extinguish the blaze. But the strong wind quickly spread the flames, which leaped to the packing shed, shrouding it in smoke and fire in a few minutes.

PLANS FOR REBUILDING.

Hardly had the ruins cooled before plans began to formulate for rebuilding. G. Petrano announces he will rebuild on the site of the old Siegaloff stable. His loss is \$5000. He carried no insurance.

The Earl Fruit Company's loss is \$25,000, partially covered by insurance. It is expected to rebuild, though it has another very large shed to be built. The company has sheds at Woodbridge and Acampo.

The James Anderson Fruit Company, a local independent concern, lost \$20,000. The company's loss is \$20,000, partially covered by insurance. It is expected to rebuild at once.

The Steacy estate loss is \$2000, partially covered by insurance. J. H. Steacy, a blacksmith shop, lost about \$500 in tools, material and other effects.

School Row Settled; Head Is Re-Elected

CERES, July 5.—August Grum has been re-elected principal of the high school by the new board of school trustees, but he will no longer be principal of the grammar school. His salary, however, will remain the same. This makes room for another teacher in the grammar grades. The re-election of Grum writes the final chapter in the row between the people of the district and the old school board. Several years ago Grum, but a mass meeting protested so vigorously that with one exception the board resigned. The new board has organized by electing John Allen, president and D. Power Booth clerk.

Man Hit By Car May Recover, Says Dr.

SAN JOSE, July 5.—John Kelley, believed fatally injured Sunday afternoon when he sustained a fracture of the skull while crossing a street car here, was still alive at the county hospital here today, according to his attending physician, has an "even chance" for recovery. The man's home is in Palo Alto.

Native Daughters At Tracy Honor Official

TRACY, July 5.—One of the most delightful events of the season was the reception of the new official, Tracy, July 5. The native daughters of Tracy, who were present, were very hospitable to the new official. The new official, Tracy, who was present, was very hospitable to the native daughters of Tracy. The new official, Tracy, who was present, was very hospitable to the native daughters of Tracy.

Free Movies Provided For Ceres Residents

CERES, July 5.—Free movies for the residents of this town began with last night's open-air show as a special feature of the Fourth of July celebration. The Business men of the town financed the project and sent H. N. Baird and T. L. Wilson to San Francisco to purchase the machine and outfit. It is one of the largest type made and a complete film service has been contracted for. The show will be a regular open-air feature during the summer months.

Wheat Is Rushed To Hickman Elevator

HICKMAN, July 5.—Farmers are finding the recently finished grain elevator here such a convenience that a night shift has been put on. Even at 11 o'clock the elevator is waiting to be emptied and great loads are coming in daily from the big farms. The farmer gets his grain promptly graded, and his sacks are returned in share for another season's use.

FIRE PLOT BELIEF AT LODI TO BRING OFFICIAL PROBE

Investigation To Take Into Consideration Attempts To Burn Other Plants.

LODI, July 5.—As a result of the many rumors of incendiarism in connection with the conflagration which swept away two business blocks here Saturday, a careful investigation is promised by the police and the sheriff's office.

One of the stories in circulation is that enemies of the Earl Fruit Company planned to destroy that plant alone, but failed to take into consideration the terrific wind which spread flames with great speed to neighboring structures.

Another theory advanced to support the theory of incendiarism takes into consideration the fact that the packing sheds of other plants in the valley have been destroyed by fires of mysterious origin, and it is expected that an investigation of the Lodi fire will go into this angle of the case.

The destruction of the Earl Company plant, it is stated, will throw many Japanese out of work.

SECOND FIRE DISCOVERED.

The theory of incendiarism is further strengthened by the fact that just after the first started near the Earl Fruit Company's packing shed, a small blaze was discovered under the packing shed of the Mason Brothers' plant. L. T. Mason, one of the proprietors, first noticed this second fire, but it was extinguished with little trouble.

A few buckets of water, had they been at hand, declare B. H. Bond and George Parkinson, who discovered the blaze, which cost Lodi \$200,000, might have extinguished the fire.

They state that when they found the pile of cut strips ablaze, outside of the Earl Fruit Company's packing shed, the fire was of small proportions, but, having no water, tried to pull the pile of strips apart, hoping to extinguish the blaze. But the strong wind quickly spread the flames, which leaped to the packing shed, shrouding it in smoke and fire in a few minutes.

PLANS FOR REBUILDING.

Hardly had the ruins cooled before plans began to formulate for rebuilding. G. Petrano announces he will rebuild on the site of the old Siegaloff stable. His loss is \$5000. He carried no insurance.

The Earl Fruit Company's loss is \$25,000, partially covered by insurance. It is expected to rebuild, though it has another very large shed to be built. The company has sheds at Woodbridge and Acampo.

The James Anderson Fruit Company, a local independent concern, lost \$20,000. The company's loss is \$20,000, partially covered by insurance. It is expected to rebuild at once.

The Steacy estate loss is \$2000, partially covered by insurance. J. H. Steacy, a blacksmith shop, lost about \$500 in tools, material and other effects.

Won't Bite? Then Smash 'Em With Rocks; He Knows

SONORA, July 5.—If they won't bite, hit 'em with a rock, says Zeph Peterson, in speaking of trout. He ought to know, according to what he solemnly declares happened on the north fork of the Tuolumne.

One day they wouldn't bite. While gazing into the depths of the pellucid pool he was startled to behold a monster trout come to the surface and swim slowly along, its fin protruding like the coming tower of a submarine.

Being possessed of a good arm and an accurate eye, Peterson, a camper relates, he up and blazed away with a hunk of rock, striking it just back of the right ear, dazing it so badly that it just floated down stream to a point where he could reach out and drag it ashore.

Fireman Hurt While Fighting Blaze on Roof

Clothesline Breaks Fall As He Plunges To the Ground.

SAN JOSE, July 5.—James O'Day, a member of the San Jose fire department, sustained a fractured leg and minor bruises here yesterday afternoon when, in fighting a blaze in the roof of a residence at 523 South Second street, he slipped from the roof and fell twenty feet to the pavement below.

The fact that O'Day struck a clothesline, it is said by witnesses, saved him from possible death or serious injury.

In falling, O'Day plunged headfirst and would have landed on his head but for the fact that his shoulder struck the wire clothesline, thus throwing him in such a manner that the fireman fell on his side, one leg crumpling under him.

O'Day was rushed to the emergency hospital, where City Physician Paul Sanford gave him first treatment. It was there that the discovery was made that the fireman's left leg was broken by the fall. O'Day has been a member of the department for several years. He was chopping shingles from the burning roof when the accident happened.

Auditorium Income Is Reported \$68,443

Oakland's million dollar auditorium has taken in \$68,443 to date, from the time of the Ball of a Thousand Colors in 1915, when it was dedicated to the public.

In a voluminous report which details every show, dance and lodge meeting held since the auditorium was built, Commissioner Soderberg left with the new council a report on the building's income. The average cost of maintenance, it is shown, came to about \$20,000 per annum. Against this were the following incomes:

1915-16	\$12,705
1916-17	7,685
1917-18	6,235
1918-19	8,739
1919-20	16,667
1920-21	20,412
Total	\$68,443

Radio Market News Service Is Planned

HAYWARD, July 5.—A radio market news service will be established here within the next month, it was announced today by County Farm Adviser Mark Lee. Lee has word from C. W. Rubel, assistant state leader of state farm advisers, that the State Market Commission, cooperating with the agricultural extension bureau of the United States government, had decided to locate a radio service in Alameda county. Rubel said Hayward was selected, as it is situated near the center of the county farming industry.

Lee's office is also in Hayward.

Plans of the government in establishing the radio market news service as set forth in the information received by Lee indicate that all amateur wireless operators are to be asked to receive and bulletin the news sent broadcast from Hayward.

A conference will be held at the University of California tonight between Rubel, other state farm advisers, Lee and members of the Hayward Chamber of Commerce to formulate final plans for the establishment of the service.

CUT IN WAGES

REDDING, July 5.—The Weed Lumber Company at Weed, the largest employers of labor in northern California, today announced a reduction of wages all around. Under the new scale, common laborers will receive \$2.50 a day, or \$1.50 less than was paid one year ago. Women in the box factories will receive \$1.50 a day. This is the fourth cut this year.

The American Fruit Company, which bought the share of the Peters Company recently, places its loss at \$40,000. Insured fairly well.

STOCKTON'S AID EFFECTIVE.

The arrival of two fire companies with complete apparatus from Stockton undoubtedly saved a large section of the residence part of the city from destruction. The Stockton engines, equipped with powerful pumps, soon put several effective streams at work on the south end of the burning district and held the flames at that point.

Provisionally, a new 8-inch main had been completed two days before the burning started. The two destroyed buildings and these furnished abundance of water.

The fire pointed out the great need of larger and better equipment for the local fire department. A steam engine is now one of the greatest necessities.

FRUIT CROP MENACED.

The American Fruit Company will move into temporary quarters as soon as possible. The Peters Company's intentions have not been announced as yet.

The enormous quantity of box stock lost is a hard blow to packing companies and will cost a large force of boxmakers must be employed at Lodi at once to save the fruit crop. The American Packing Company needs 80,000 boxes alone.

A temporary telephone system was installed in Lodi to serve the east side of town and the rural region beyond.

Materialism Caused Unrest, Say Speakers

LODI, July 5.—Gross materialism is the cause of the deep unrest and the unethical conduct throughout the world, declared speakers at the opening of the Northern California conference of the Seventh Day Adventists at Lodi Academy campus. They pleaded for a return to old-fashioned Bible standards if the world is to regain its normal state.

Over 1800 were in attendance. The Sunday school drew 1665 pupils and the contribution for foreign missions amounted to \$803. The conference is the largest ever held in the northern half of the state, and officials of the church, prominent speakers are present from all over the country. The conference ends on July 10.

The German Republic is the first nation to pass a law providing maternity aid for all women with small incomes.

AGED MAN DIES AFTER BEING HIT BY AUTOMOBILE

Coroner's Jury Is Impanelled and Driver of Car Summoned.

SAN JOSE, July 5.—An inquest into the circumstances surrounding the death of George Coulter, aged man struck by an automobile driven by Louis Luchetti, is to be held last Tuesday night, it is said here this afternoon. The aged man died at the county hospital here early last evening.

Luchetti, who was at first arrested and then released on his own recognizance, has been summoned to appear before the coroner's jury, which is to investigate the death.

Luchetti struck Coulter, including M. C. Carey of San Francisco and J. R. Baker of Sunnyvale, informed the local authorities that Luchetti was driving his automobile at fully fifty miles an hour at the time the accident took place. Luchetti's car struck a chuck hole and was thrown to the side of the road, striking Coulter, who was walking. Little or nothing is known of the dead man. Just before his death he declared he had no relatives. He was a transient.

Stage Lines File No Rate Schedule, Report

SAN FRANCISCO, July 5.—Charges that 45 motor stage line operators, most of whom run between Los Angeles and Bakersfield, Fresno and San Francisco and San Diego and nearby points, are operating in violation of the public utilities act, were made to the State Railroad Commission today by the Motor Carriers' Association, made up of 200 stage and truck operators.

According to the complaint the 45 operators, none of whom is included in the association, do not file their schedules and price lists with the commission as specified by law, but content themselves with merely advertising such schedules and lists. The association asked that the independent truck operators be compelled to observe all rules which it charges them with breaking.

S. F. Supervisor in Automobile Accident

SAN FRANCISCO, July 5.—Supervisor Ralph McLeran and Mrs. McLeran were victims of an automobile accident on the Dublin Canyon highway while on their way to Stockton to spend the Fourth, it was learned today. In some manner McLeran lost control of his car and it rolled over an embankment. Both the supervisor and his wife escaped injury, but cancelled their trip and returned home.

Committee Takes Up Soldier Bill Changes

WASHINGTON, July 5.—A Senate committee was ready today to start hearings on the Sweet bill to consolidate the soldier relief agencies of the government, but no witnesses appeared. The committee turned its attention to amendments suggested

PAIS SEE BOY DROWN.
BROWNSVILLE, Ore., July 5.—Earl Hamilton, while fishing in the river here, fell into deep water and drowned. He could not swim and his two playmates were unable to assist him. He was 11 years old.
by Dr. Forbes of the war risk insurance bureau and approved by the American Legion.

YOU CANNOT OBTAIN BETTER DENTISTRY

anywhere than
you will receive
at this office

though you may be charged twice our price by some other dentists. Most people, if limited to a certain amount of money, with the positive knowledge that they could never by any means secure more, would spend each penny with the utmost caution, and weigh cost and value well.

A "good time" today makes less likely "good times" tomorrow. Professional men, as a rule, whether justly or not, are accused of being "poor business men"—and many people who are "good pay" pay TOO MUCH for legal, medical and dental service because people who are "poor pay" DON'T PAY AT ALL.

That is due to a lack of SYSTEM on the part of the professional man. Many dentists WASTE so much TIME and MATERIAL trying to work under difficulties, that they must add what they LOSE to the patient's bill—that again is lack of SYSTEM.

Other dentists waste time of high-priced operators doing purely mechanical work, when a trained mechanical dentist and gold worker would do the work BETTER and in LESS TIME and WITHOUT WASTE.

These are the truths I dug out of a personal study of many dental offices. They are the truths I have held responsible for POOR WORK and HIGH PRICES.

I have overcome extravagance in my office because I have applied BUSINESS EFFICIENCY TO EVERY DEPARTMENT, and that is WHY I CAN AND DO GIVE THE PUBLIC BETTER DENTISTRY FOR LESS MONEY.

Superior Dentistry at Modest Fees

Our record of achievement—a quarter
of a century of dependable dentistry

Don't Dream
About Saving

Do it. It's easy to be independent, to have money. "Save and have" is a homely maxim that even many who earn big salaries never grasp. Unemployment, sickness, age, make dependents of these careless spenders.

Since 1875 this institution has taken care of the savings of the people of the Bay region without loss of a dollar to anyone. Put your money in, have it earn 6 per cent interest. Should something you didn't expect come up and you want your money back right away, it's yours to take. Money placed before 10th of the month draws interest from 1st.

6%

ROCKETS ENHANCE RARE BEAUTY OF LAKE SPECTACLE

Dance At Auditorium Ends
Early Today, Closing
Oakland's Fourth.

One of the most popular "celebrations of Independence Day since the war was brought to a close shortly after midnight this morning when the last lingering crowds left the Auditorium arena after a grand patriotic ball which started early last night.

Outside of the Auditorium last evening thousands of persons thronged the shores of the lake, enjoying the fireworks display offered by the general Fourth of July committee.

The lake presented a colorful scene as gaily decorated canoes glided about. The many Chinese lanterns carried by canoes and launches lent a soft illumination to the waters, while the pyrotechnics

CHILD PLUNGES FROM 'L' TRACK; INJURY SLIGHT

NEW YORK, July 5.—Nine-year-old Anna Cunningham fell off a station platform in front of an elevated train in Brooklyn today. In falling she missed the approaching cars, dropped between rim of the platform and the track, glanced off an electric feed wire and landed on the street pavement, 35 feet below. She cried as a policeman picked her up. Physicians found her only injuries were three broken teeth and some scratches.

AUTHOR IS DEAD.
CHICAGO, July 5.—H. G. Gilmore, head of the Federated Press, widely known as an author and humorist, died yesterday. He was 35 years old and is survived by his widow.

momentarily threw the entire scene into sharp relief.

Large crowds spent the day at the bathing beaches in Alameda, notably Neptune Beach, where special swimming events were held, and at Idora park, where a program of boxing bouts was staged for and by the sailors of the Pacific fleet. Many others spent the day in the hills and in the country and last night saw the return of large numbers of automobile campers to the city who had spent the week-end in the mountains.

CHERRY'S
GIVE CREDIT

Ladies' Serge Suits
\$17.50

Very charming and fashionable are these greatly reduced suits of navy blue serge with Tuxedo fronts, beautifully hand embroidered and silk lined throughout.

Men's Suits on Credit

HELD FAST!

MANY are held fast to their present position in life due to lack of business training. They get no further than a place which can be filled every day in the week by telephoning an employment bureau. There are hundreds of applicants for every job where business training, brains, and initiative are not required.

Are you going to compete with the hundreds from the employment bureaus or are you going to be sent—in response to an entirely different kind of a telephone call—by Heald's Business College to a good-paying position with every opportunity for advancement? Business men call Heald's when they have such a position to fill.

Now is the time to answer this question. To postpone a definite decision results in only one thing: Becoming one of those held fast by lack of business training.

Attendance at Heald's Business College meets the requirements of the State law enforcing part-time class work by all those under 18 years of age who are not high school graduates. For further information write, telephone or call.

LONDON EXPLAINS ANGLO-JAPANESE TREATY STATUS

Will Remain in Force Until
12 Months After Notice
of Termination.

LONDON, July 5 (Canadian Press).—So much confusion has resulted from conflicting statements as to what has really taken place in connection with the renewal of the Anglo-Japanese alliance that a statement of the precise position, defined by authoritative sources, was promulgated here today. The situation was outlined as follows:

Last July the British government informed the League of Nations that the treaty with Japan would be adapted to the terms of the league. That declaration appears to have been accepted by the dominions and indeed by the British foreign office, as a denunciation of the alliance. It was with this understanding that Arthur Meighen, premier of Canada, entered the conference and made his case against renewal of the treaty. He was under the impression that unless that alliance was renewed it would lapse on July 13.

TREATY STILL IN FORCE.
Lord Curzon and A. J. Balfour, who preceded the Canadian premier in statements on the subject, were under similar impressions. Meighen interrogated the British secretary for foreign affairs, but Lord Curzon assured him that the note to the League of Nations constituted a denunciation and that it was wholly a question of letting the alliance lapse or entering into a new one.

On this assumption, therefore, argument for and against the new alliance proceeded and it was not until Friday last, after the question had been under debate for a week, that Lord Birkenhead, lord high chancellor, appeared before the conference and gave information that the note to the league did not constitute denunciation and that, therefore, the present treaty remained in force another year.

DEPENDS ON CONFERENCE.
The old alliance entered into in 1911 remains in force. It will remain in force until twelve months after such time as the British government may serve notice that it desires to terminate it. Whether this notice will be given and when depends largely upon one development, namely, the possibility of a successful conference of the three powers—the British empire, the United States and Japan—upon the Pacific and disarmament problems.

The conference of prime ministers has shown that it is in favor of such a conference being held. Agreement on the part of all the powers concerned is necessary also.

NOT AIMED AGAINST U. S.
TOKYO, July 5.—Denial that the Anglo-Japanese alliance can be construed as being aimed against America was made in a long statement issued today by the Japanese foreign office.

"By no stretch of the imagination can it be honestly said that the alliance was ever desired or remotely intended as an instrument of hostility or even of defense against the

United States," the statement said. It is the firmly fixed determination of Japan to permit nothing to hamper her traditional relations of good understanding with the United States."

FAVORS OPEN CONFERENCE.
WASHINGTON, July 5.—Shigeo Sugiyama, professor of law in Kyoto Imperial University, Japan, who is in this country in the interest of limitation of armaments, announced today that he had conferred on the subject with Senators Borah, Republican, Idaho, author of the disarmament resolution appended to the naval appropriation bill, and Kenyon, Republican, Iowa.

Professor Sugiyama said that in his judgment it would be "a grave error" should the proposed disarmament conference be secret, "because of the vital interest taken in the subject by British and Japanese people, as well as those of the United States, if the impressions I have received here are correct."

"I suggested my feelings on this subject to both Senators Borah and Kenyon," he added, "and felt greatly encouraged by their apparent attitude."

Professor Sugiyama said the movement for limitation of armaments had "the backing, political and active, of Japanese business interests" and that "ardent approval" had been shown by the masses in Japan upon the many occasions that he had addressed them.

PARTY FOR CLASSMATES.
TRACY, July 5.—One of the season's jolliest events was the affair given by Miss Katherine Taylor to her classmates. It was held at the Century Hotel. Music, games, and other features were enjoyed, followed by refreshments.

HE SHOOTS WOMAN, SELF.
CHICAGO, July 5.—Clinton Harper, son of Tom Harper, village president of Dolton, Ill., today shot and probably fatally wounded Mrs. Homer Davidson, according to the police, and then shot himself. Jealousy is believed to have been the motive. According to police reports, Mrs. Davidson left her husband several weeks ago.

TUESDAY, JULY 5, 1921.

STATE OF WAR ENDED.

Congress has adopted and President Harding has signed a resolution proclaiming the wars between Germany and Austria-Hungary, declared in the spring of 1917, to be officially at an end. This act, coming two years and eight months after the signing of the armistice on the battlefield, has the effect of terminating war conditions of law and government in this country. Much of the extraordinary authority conferred by Congress on the executive officials was designed to last only until the end of the war. The war having been declared ended by Act of Congress, that authority now lapses.

But there is no agreement of peace between this country and Germany and Austria-Hungary. When such agreement may be executed cannot now be stated. The State Department probably will take up very shortly the question of negotiating separate treaties with the enemy countries, but there is no indication that proceedings will be rushed.

Nor is there any certainty about the form and provision of the new treaties. However, the opinion is pretty general that the treaty of Versailles will be made the basis of the treaties; that is, all the essential terms of the Versailles agreement which were designed expressly to constitute a settlement of the war will be adhered to by the United States, but the League of Nations covenant and all the interminable obligations which that covenant imposes upon the other signatory powers, will be rejected.

Secretary of State Hughes already has indicated to the German government—in connection with the reparations controversy—that the principal terms of the Versailles treaty relating to the war and its direct penalties are approved by the American government. It is to be hoped there will be no material departure from this stand. Nor is there likely to be. Germany has acknowledged the justice and has finally undertaken to fulfill the conditions of the Versailles agreement. Exclusive of the League of Nations covenant, the Shantung grab by Japan and the system of mandates, the principles of that agreement, in so far as the United States is concerned, ought to be approved in any treaty negotiated with Germany and Austria.

THE NEW CHIEF OF STAFF.

General Pershing has taken over the duties of Chief of Staff of the Army. This is the first active duty assigned to the commander-in-chief of the war army since his return from Europe and in the peacetime organization of the army this is the only assignment appropriate to his rank. General March, who also rendered distinguished war service, has been granted leave of absence until November, when he will reach the retirement age. It is expected that General Pershing will lose no time in inaugurating new system and methods in the office of Chief of Staff. As indicated by his own views and by the announcements of the Secretary of War, the first task he will undertake will probably be the organization of a general headquarters similar to that organized in the French army before the outbreak of hostilities in 1914.

General Pershing has taken over his new duties with the firm determination that, if he can prevent it, the United States army shall not have again to go through the experiences which preceded its entry into the world war. When General Pershing was ordered unexpectedly from the Mexican border in 1917 and given the command of the first division going overseas, with instruction to establish a field staff in France, he found it necessary to disrupt the general staff in order to obtain competent officers for the important overseas duty. If the plans of General Pershing and Secretary Weeks materialize there will be a skeleton field organization created which would be competent to take charge of the field armies in case of war without completely disorganizing the general staff.

General Pershing has sound views regarding the importance and administrative system required for the National Guard and believes that the citizens' reserve authorized by law should be organized as early as practicable.

Associated with General Pershing as his chief

executive assistant will be Major General Harbord who was Pershing's chief aide in France during the war. General Harbord has proved his ability as an executive officer and the military establishment may rely upon the intuition that the new regime of the General Staff at Washington will give evidence of the lessons learned by the severe experiences of 1917 and 18.

EMULATING BRUTS.

Things will go wrong occasionally, regardless of the most serious efforts at smooth management. There is the speech a few days ago by Lord Curzon in the British House of Lords touching on the League of Nations. The fact that Lord Curzon is Secretary for Foreign Affairs in the British government lends special interest to his utterances.

Lord Curzon was discussing the subject of mandates under the League of Nations, a subject that had been brought to the front by the protest of the American State Department against the Supreme Allied War Council turning over the island of Yap to Japan. He said that matter was involved in much obscurity. That was a surprising admission, but he had not finished.

He went on to say that the language of the covenant of the League of Nations was such that not even a trained lawyer knew what it meant. He was inclined to believe, also, there was a mistake in policy when the Allies met in Paris, in their extreme anxiety to get the League of Nations on the international statute book. They rushed almost with precipitation, he said, to discuss questions which it was now seen would better have been solved by being postponed.

Here is an official admission from the highest circles in the British government that the League of Nations does not remove all uncertainty from international issues. Lord Curzon announced that he will be quite prepared to acquiesce in any notice he may receive from the League that before the mandates for Pacific territory are finally disposed the interested powers must recognize the right of the United States to be consulted.

That is of direct interest to the government at Washington. Lord Curzon's statements that a trained lawyer cannot understand the language of the League covenant and that the Allies committed a mistake in policy when they rushed the enactment of the covenant ahead of the peace agreement is of piquant and intriguing interest to the whole people of this and several other countries.

A new precedent was set the other day in the political activities of women, when Congresswoman Robertson of Oklahoma occupied the Speaker's chair in the House of Representatives and presided over the deliberations of that body. There was no reason why the lady from Oklahoma should not have been designated to take the Speaker's place during his absence. According to all accounts she is a thoroughly competent member, and from her advice to Congress to "Stop talking and save money," she seems even qualified to counsel and direct her fellow members. But it is to be remembered that only a few years ago there was not a very strong belief that women would even be admitted to membership in the national legislative body and Mrs. Robertson is the second woman to enjoy such membership.

There is a movement in a certain part of Scotland to change the name of the village of Dryburgh to that of Wetburgh. Doubtless an appropriate change.

A dumb man went up in an airplane and recovered his voice. A great many other men have gone up and lost their heads.

ALTERNATIVES IN THE PACIFIC.

In spite of the State Department's announcement that Washington has not been informed of the plans of the British Government with regard to the Japanese alliance, the fact remains that the American people has been repeatedly informed of one great concern of the British leaders—and that is their eagerness to take America's wishes into consideration in shaping the new treaty of alliance. If this invitation is rejected by public opinion in this country or by the government at Washington, it will be for one or all of three conceivable reasons:

(1) We disapprove of the whole idea of alliances. We believe in the opposite ideal of an associated world. This is the position vigorously taken by the Times yesterday, when it declared that "all the nations have a special interest in the preservation of peace. The alliance or agreement of all would seem to be sufficient protection for each." But this argument can hardly come from a nation which stands outside the League of Nations or from a government which has not yet got around to its own plan for an association of nations.

(2) Accepting the principle of alliances, we may nevertheless refuse Britain's open invitation to speak, because we do not like the idea of the Japanese alliance and would not give it the moral recognition implied in submitting our views for consideration. The reasons why an important section of public opinion here looks askance at the renewal of the Anglo-Japanese alliance hardly need restating. Our own causes of issue with Japan, the past history of the Anglo-Japanese alliance, Korea, Shantung, the "Open Door," sum up sentiment on this subject.

(3) We may not think it necessary to state to an outsider our wishes regarding the Far East and the Pacific. In direct negotiations with Japan, the United States can pursue its just aims for the protection of our own interests, for the protection of China and for the maintenance of peace in the Far East.

But the point to keep in mind with regard to the first two reasons is that whether or not we disapprove of the system of alliances in general, and whether or not we disapprove of the Anglo-Japanese alliance in particular, that alliance will be renewed and will be a fact in the Far East. The question is, therefore, whether the alliance shall be renewed upon the basis of a knowledge of our wishes or not.

We cannot see that a statement of America's feelings on the subject for the benefit of the British Imperial Conference interferes in any way with Point 3—the belief that our policy in the Far East must be shaped by ourselves in negotiation with Japan. We cannot see why America should not work for peace and the well-being of the Far East through all the channels possible to her work indirectly through a friendly Great Britain, as well as directly through our own State Department.—New York Evening Post.

NOTES and COMMENT

The feat of Dempsey gains immediate applause, but the feat of Tex Ricard, in galvanizing a hundred million people into greater attention over a prize fight than they have manifested over any event since the world war ended, and making up of it, is an achievement that is not being overlooked by thinking people.

The Budget Director has been heard from already. It was predicted that he would not long delay getting into action. He has expressed the opinion that even one-half million is a full large sum to expend in the enforcement of the Volstead Act. Director Hoover may not be from Missouri, but he would like to be shown that it is necessary.

That Attorney-General Clegg denies that Debs will be pardoned indicates a stiffening in a vertebra of the administration backbone which it was feared was becoming weak. In dealing with un-Americanism this administration certainly should leave the previous one in a well-defined wake.

The order which turned back those touring into the Yosemite who did not carry their bed and board, or had not made provision for the same, has been rescinded, which must be so satisfactory to everybody concerned, and is so reasonable on general principles, that there may be no impulse to wonder how it ever came to be issued.

Jess Willard wants to try his luck again. Jess is thrifty, but is not likely to have spent his share from his last fight. Perhaps it is explained by the excess proceeds from last Saturday's event over the one in which he figured. The public certainly was amiable in their patronage of the last event.

The President has signed the measure which establishes peace with Germany, and it has become a law. It is a good achievement, but it required a long time to bring it about.

A cable from Cassel, the city of which socialist leader Scheideман is mayor, tells of the municipal authorities considering an alliance against the older quarter of the city with poisonous gas. Just when wonder is aroused that there should be serious trouble in that staid city the explanation is shipped that the crusade was against bedbugs. Singular subject for a cable, but characteristic joke from that quarter.

The man who stole a red-hot stove has enjoyed exclusive attention up to the present time, but now he has to share it with whoever it was down San Jose away who stole a colony of bees while they were at work.

A despatch says that Lenin's real name is Oulianoff. The Soviet leader has no more of an agreeable odor by any other name, whether you can pronounce it or not.

SPIRIT OF THE STATE PRESS

"Turkey" Smith of Orland brought 700 turkeys down on Monday to see how they would stand the trip from Glenn county to the Eagle alfalfa fields near Dixon, which were being devoured by grasshoppers. They came so well that he brought down 1000 more by truck and trailer, and the rest of the 5000 will follow shortly. In cleaning fields of hoppers they will undoubtedly prove a big success.—Dixon Tribune.

The first traveling conference of the Contra Costa county farm bureau, which took place June 24th, was more successful than its most ardent proponents anticipated. More than twenty-six auto-loads of farmers attended, and the conference visited the eastern and western sections of the county, viewing various kinds of agricultural demonstrations.—Hewittwood News.

An ordinance has been adopted at Los Angeles requiring those engaged in plumbing work to pass an examination. The commission under which the examination is to be held is to consist of a master plumber, a journeyman plumber and a doctor. Why not a banker, too? Anything with so many plumbers at work on it will surely end for a moneyed gentleman somewhere around hands.—Stockton Record.

The new prohibition enforcement officer in California has found some of the \$240,000 worth of whiskey which was stolen from a San Francisco bonded warehouse some months ago. He is evidently a free agent, and some day clear up the mystery in the fabrication of dry delegates to the late Democratic national convention when seventy barrels of ripe booze were lost.—Stockton Independent.

Some people—not a great many—have been giving California the devil for a long time, figuratively speaking, but now the state has received for a state park. This act probably has the ghost of the terrible devil bird, whose incubation there caused the early Indians to give the mountain its satanic name.—Atascadero News.

The farmers' organizations in Napa county propose to stamp out rowdiness. During the past year dance halls and entertainment given by farm centers. Those who persist in traveling the "jackass" brandy route have dropped in at the dances and made themselves both conspicuous and disagreeable. The Farm Bureau has determined that these disturbances shall be stopped.—St. Helena Star.

It is stated at the navy yard that the battleship California, which is to leave the yard in August to have her propellers hung at the Hunters' Point drydock, will pay a visit to Honolulu in September while on her shake-down cruise.—Vallejo News.

RECOGNITION FOR THE FOOL.

THE BURNING GHATS.

The boat drifted on to a smoke-blurred spot, which we knew at once for the burning ghat. It was less terrifying in reality than in imagination. As they lay upon the piles of wood built up in the form of racks, the bodies of men and women, in their wrappings of white or of red, looked so statueque that the flame and the gray smoke seemed but symbols of a fitting rite of consecration. The guide rudely broke in upon our reflections by contemptuously remarking: "This low class burning-ghat for burning poor who not much wood can buy. Yes, please, here cheap to burn. But lower down I show you high class place with many bodies, bodies coming all day. Much business. Also one raised stone place where maharajahs burn with the sandalwood. Oh, very costly!"

At the farther burning-ghat, we did not have the privilege of watching a maharajah "burn with the sandalwood," but we did see "much business," as our guide had promised. There were sometimes five or six pyres in flames, while bodies, in half dozens, lay about on hurdles, awaiting their turn. They had first to be put into the Sacred River for their last holy bath; and they sat, reposed at any angle on the steps until a man was at liberty to push them into the water and to pull them down with a piece of cord. There they lay pitifully in foul-lime impotence. But grandeur overlook them upon the pyre; they were inclosed in a winding-sheet of flame and curtained from the rude gaze by curving drifts of blue smoke. Suddenly a gong—a most powerful, insistent gong—smote our ears. A boat was being pushed off the bank, quite close to us. It was manned by some eight semi-nude Hindus, one of whom sat in the fore part, striking, at slow intervals, the brassy note. Across the stern lay a dead sadhu, uncovered except for a large stone bound upon his chest and back, and similar weights attached to his feet. We watched the boat as it was rowed out to the middle of the river. The priest had been a stout old man, and his figure, in its naked repose, was impressive. The gong said, "Gone! gone! gone! gone!" until the boat had reached the middle of the Ganges; then two of the rowers carried the dignified old man into the water. It leaped, sparkling, to receive the body, and it bedewed with diamond drops the two bearers, who, having performed their pious task, climbed back into the boat.—From *Afloat on the Sacred River*, by A. Coyle, in *Asia Magazine* for July.

TAXES ON A VACUUM.

There is need of care in the interpretation of tax deficiencies. They may suggest that better administration would produce bigger returns. They may be an attack upon a good tax, or a covert plea for one sort of tax over another sort. The treasury is collecting taxes on a vacuum now in some cases where price collapse has converted profits into losses. If the treasury is too exacting, even within its rights, it may cause bankruptcies rather than increase taxes.—New York Times.

GOVERNMENT OWNERSHIP.

No system of government ownership of railroads has been suggested which does not depend upon the public to finance the operations. The interests of the public, whether the system be government or private ownership, depend largely on whether the management happens to be in an expensive or an economical frame of mind.—Washington Star.

TODAY 20 YEARS AGO

Ten buildings were burned in Modesto. The damage is estimated at \$150,000.

Despatches from Henley, England, tell of the victory won by the Leander Rowing Club (English) over a crew from the University of Pennsylvania.

A big celebration was held yesterday in observance of the Fourth. Among other features there was a regatta on Lake Merritt. Joaquin Miller and John A. Britton were among those who took a prominent part in the literary exercises.

THE CASE OF SIMS.

If the Navy Department attempted to discipline or discharge Admiral Sims there would be a roar that would be heard clear across the ocean. Instead of being a martyr he might be pushed into a living leadership. From a diplomatic standpoint the admiral may at times be accused of indiscretion, but when it comes to close quarters he is usually prepared with the facts. If he had said that there were jackasses in Congress few persons outside of Congress would protest. There are many people who feel that a Missouri mule has the edge on some of our Congressional material.—Los Angeles Times.

Reciprocity.

The minister was loud in his praise of the fat and juicy bird his colored host served for dinner, and finally he asked, "Where did you get such a fine goose as that?"
"Fahson," replied his host, "when you preach a good sermon on when you want you get it. Ah, hopes you'll have de same consideration for me."—Boston Transcript.

About YOUR HEALTH

Typhoid Fever Carriers; Facts You Ought to Know.

By ROYAL S. COPELAND, M. D., Commissioner of Health, New York City.

One may be perfectly well himself and yet be the carrier of the germs of disease. This is true of cholera and it is particularly true of typhoid fever. It is not uncommon to find the typhoid patient fully recovered but his discharges filled with the deadly germs. There was a small epidemic of this disease some years ago in New York City. Nearly 500 cases occurred and all were traced to one milk supply. It developed that the contamination came from a carrier who had typhoid fever forty-seven years before.

Study of the problem has shown that 2 per cent of all typhoid fever patients continue for years and years to be typhoid carriers. Undoubtedly such carriers are present in every community.

It is believed that the gall bladder is the offending organ. This offers a splendid culture medium and place of incubation for the germs. Drainage or removal of the gall bladder is likely to remove the danger. Since the victim is himself healthy and comfortable, it is difficult to get him to undergo the operation. A few carriers have submitted to perpetual quarantine rather than undergo surgical treatment.

It seems cruel to limit the freedom of a human being, but the good of society must be conserved, even though the individual is made to suffer. One notable carrier has a record of sixty cases of typhoid and twenty deaths. For the common good such a person must be kept under constant observation.

It is interesting to find, too, that some persons have been discovered to be typhoid carriers who give no history of having had the disease. These are called "latent carriers." The other variety is called "convalescent carriers."

Recently, where one of the quarantine stations was testing for cholera carriers, a number of typhoid carriers were discovered. It is probable that if the test were universally applied an enormous number of carriers would be found who will probably go through life unsuspected. They are scattering deadly germs without knowing it.

The modern methods of sanitation, sewage disposal, water and milk protection have removed sources of danger and have made us safe against diseases which otherwise would be inevitable. The common knowledge that the housefly is a menace has given us screens and has led us to fight this plague carrier.

The waters in which shellfish are grown are now under the observation of public health authorities. This is important, because the residents of a city who drink water of a typhoid fever carrier endanger the entire shellfish community. The pasteurization of milk and milk products has materially lowered the death rate from several causes, including typhoid fever.

Food and drink should come from sources of known purity and freedom from the possibility of contamination from typhoid fever germs.

FITZMAURICE LOSES JOB AS TREASURER

Mayor Davie and Councilmen
Carter and Colbourn Cast
Deciding Vote; Baccus and
Edwards Would Hold Him

Efficiency Expert Cook Is
Also Removed From Pay
Roll; Japanese Ruling in
Zoning Law Told By Gray

William Fitzmaurice, city treasurer and ex-officio tax collector, was dismissed from office by the city council today after twenty years of city service.

The dismissal was expected. Fitzmaurice worked hard for the opponents of the present new administration and despite frantic efforts to save his position it was decided that he must go. Commissioners Baccus and Edwards voted against his dismissal, but the votes of Mayor Davie and Commissioners Carter and Colbourn carried the vote.

"I wish to be excused from voting for this measure," said Edwards. "I know the efficiency of the incumbent and nothing about the man who will take his place."

Baccus immediately introduced a resolution appointing Herbert J. Anderson to the position. It was approved by the council.

**DISCHARGED OFFICIAL
SERVED MANY YEARS.**

Fitzmaurice has been in the city treasurer's office for twenty years. It was his first and only job. He acted as clerk and worked up gradually, gaining many friends. He has seen administrations come and go, but this is the first administration which will make him go. He says he has no immediate plans, but it is expected that he will appear in some high public position in the next few months, though not in the city's employ.

The council this morning also dismissed N. W. Cook as efficiency expert. Last Friday the council introduced an ordinance abolishing the position, but the ordinance takes several days to pass and eight days thereafter to become effective. The council took a short cut today.

**JAPANESE MAY NOT
BE BARRIED FROM ZONES.**

In answer to the protests of residents at Forty-third and Webster streets against a Japanese family acquiring property in the neighborhood, Acting City Attorney Leon Gray informed the council that it is powerless to act, citing that the United States Supreme Court has ruled against an ordinance by some other city which intended to restrict a residential district against the Japanese. The Supreme Court president, says Gray, must stand.

Gray, however, said that if the Japanese have leased or bought the property in question the alien land law may be violated and he suggests that the protesters bring the matter to the attorney general of the state.

John P. Irish, in response to the anti-Japanese petition, sent the council a protest, asserting that the Japanese should not be discriminated against and asking that the trustees with Japan be withheld to the letter and spirit. The communication was filed.

A resolution by the council regarding a \$100 appropriation out of last year's funds for the convention of the state music teachers, now in session, and resolved to appropriate \$200 out of this year's funds.

E. Russo was reappointed as instructor of the firemen's band.

A request by the Fourth of July committee for \$1500 to defray expenses was referred to Commissioner Baccus.

**POLICEMEN PEDDLING
TICKETS TO STOP.**

A protest against policemen and firemen selling Irish Relief tickets on the streets was referred to Commissioner Colbourn.

"There must be no more of this," said Colbourn. "When men in uniform sell tickets, it carries the appearance of citizens buying under duress. This applies to all cases. The custom will be stopped. The police and fire departments must not be used for this purpose."

In the matter of an appropriation for a corrugated iron shed to house the Oakland artillery materials, Mayor Davie requested that the matter be referred to him again, as he wants to be sure where this shed will be built. He says he wants to reserve certain lands and build an auditorium for the future civic center.

The Council met as a Board of Equalization, but no citizens appeared with protests against the charges against them. The Council then met as the Melrose business district, but there was no business, and it adjourned.

**Two Accidents At
Santa Cruz Serious**

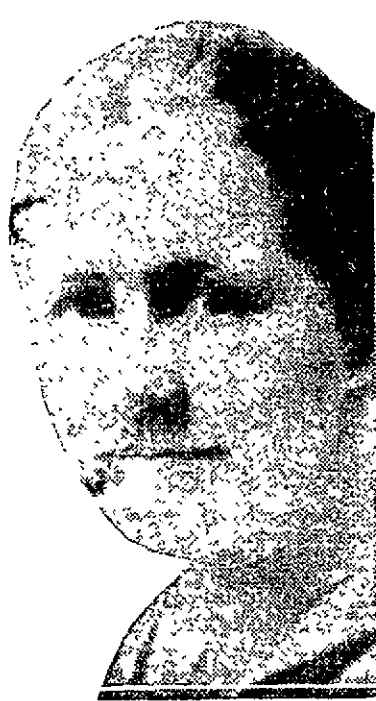

SANTA CRUZ, July 5.—Two serious automobile accidents marred the Fourth of July celebration here. Mrs. Andrew Bomdozki of Fresno and her four children went over a 20-foot embankment at La Veda, when Mrs. Bomdozki lost control of the machine who was driving. She is seriously injured. The children were not hurt.

D. V. Daniels, 3233 California street, San Francisco, drove his machine over a 30-foot embankment. Although his condition is serious, it is said that he will recover.

**Shipbuilding Slows
Down in Clyde Yard**

LONDON, July 5.—Shipbuilding in Great Britain during the month of May suffered a decline. As an example, the Clyde shipbuilding yards, which during May of last year launched 11,501 tons, this year only launched eleven vessels, with an aggregate of 22,525 tons. The decline in trade and the consequent putting of the workers on short time is given as the main reason for the slump.

Berkeley Youth To Take Bride To Honolulu

MRS. ALDEN RAYMOND STEPHENS (Clara Shaw), recent bride, who will make her home in Honolulu.

Couple Sail on Honeymoon
Today and Will Remain in
Islands For Time.

BERKELEY, July 5.—Mr. and Mrs. Alden Raymond Stephens, whose marriage took place last week in Sacramento, sailed today for Honolulu, where they will spend their honeymoon. Stephens is the son of Mr. and Mrs. A. C. Stephens, 1912 Henry street, and his bride is the former Miss Clara Shaw of Sacramento. The wedding culminated a romance that had its inception when Mrs. Stephens was State superintendent of the Intermediate Baptist Young People's Union.

Stephens is a graduate of the Berkeley High school and served in the navy during the war. For the past year he has been connected with a local corporation, but resigned and will accept the assistant superintendency of the Honolulu Electric Company, where the couple will make their home.

The wedding was solemnized in the First Baptist church, in Sacramento, with Reverend E. R. Wilson, the pastor, officiating.

Wife Says Husband Hit Her With Bread

Ethel P. Mitchell was granted a divorce from Roland P. Mitchell and \$75 a month alimony today by Judge J. J. Trabucco. She alleged in her complaint that her husband declared that he was sorry he had married her and that on one occasion he threw a loaf of bread at her, which struck her in the face.

SHE WORSTS EX-HUSBAND IN GUNFIGHT

His Efforts To Quiz Woman
Send Former Mates To the
Hospital and Place Armed
'Peacemaker' in S. F. Cell

SAN FRANCISCO, July 5.—Several shots of a revolver and a shotgun were fired, and the shotgun was later used as a club and afterward thrown out the window to discharge in the street in midair, in a fight between Mrs. Catherine Salisbury and her divorced husband, Dan Sorentino, which took place today in her apartment at 53 Jackson street. Sorentino is also known as Dave Sullivan.

Attracted by the screams of Mrs. Salisbury, Alexander Smith, a sailor, ran into the apartment with the shotgun and was endeavoring to quell the trouble between the man and woman when the police arrived.

MAN WOUNDED.

Sorentino is at the Harbor Emergency hospital as a result of the affair, with several fingers shot off and a portion of his chin torn away. These casualties were suffered when the revolver, which was the object of a struggle for possession in the course of the fight, exploded in the apartment. He also suffered from lacerations and abrasion of the head when Mrs. Salisbury brought down the barrel of Smith's shotgun on his head in support of her belief in the epigram that "All's fair in love and war."

"PEACEMAKER" JAILED.

Smith, who affected the role of the armed peacemaker, is in the custody of the police, as well as Sorentino.

After Mrs. Salisbury had struck her former husband over the head with the shotgun, according to Smith, that article, as well as the revolver, entered into the struggle, until finally it became disentangled from the clutches of either of the combatants, with such force that it soared through an open window in the apartment, discharged in midair and landed on the sidewalk below.

Fortunately, the street was empty and the shot went wild, for no personal damage was done by the discharge of the shotgun.

POLICE END FIGHT.

At this juncture, while the man and woman were still struggling for the revolver and while Smith was engaged in shouting his views on the probable efficacy of an armistice between the warring persons, the police arrived, headed by Sergeant of Police Charles Birdsell, and placed the parties to the affair in custody.

The police investigation disclosed that the Sorentinos were divorced two months ago. Sorentino claimed that since then his wife has sent him threatening letters. He went to her apartment to ask about them and the quarrel started, he said.

County's Property Value Increased Eight Millions

Substantial increases in the assessed valuation of property in both the city and county are shown in the assessment rolls of County Assessor I. H. Clay, submitted to the Alameda county Board of Supervisors today, and of City Assessor I. H. Clay, officially tendered the Oakland City Council at this morning's session.

Assessment rolls for the year 1921, delivered to the board of supervisors by Clay for equalization, shows a total valuation of \$287,213,716, exclusive of personal property unsecured by real estate, or an increase over the valuation of 1920 of \$3,034,700. Although the increase over last year amounts to over eight million dollars, the supervisors can count on only \$7,837,375 for tax rate fixing purposes, as \$147,225 of the amount represents the increase in operative property owned by public utilities, taxes on which are paid to the State and not to the county.

SHOWS COUNTY GROWTH.

In submitting his report, Clay said, "The increase speaks well for the natural growth of the county, the increase and enlargement of industrial plants contributing greatly to the grand total."

Exemption was claimed under the constitutional provision exempting property of soldiers and sailors, by 4051 veterans who secured a total exemption of \$2,694,275, as against last year's exemption of \$1,667,677. The allowed \$216 veterans, an increase in the exempt property on this item of over \$1,000,000.

The increase in assessed valuation would lessen the tax rate for the coming year about 1 cent, Clay said, providing there were no increased expenditures over last year, but that as the people had voted for increased expenditures for which the supervisors must provide, the increased valuation will take care of the four cents in the tax rate which otherwise would have to be raised that much more.

BIG INCREASE SHOWN.

An increase over last year of \$1,082,850 is shown in the recapitulation roll of 1921-1922 for Oakland as submitted to the council by Auditor Williams. Total assessments shown in the increase do not include the appropriate increase of \$2,000,000 in personal property and solvent creditors unsecured by real estate according to the report.

Following are the figures as submitted by Williams:

Real estate, \$55,930,300; improvements \$57,010,900; personal property and solvent credits (U. S. insured, estimated at \$10,000,000), \$25,935,650. Grand total of assessment roll, \$148,936,750.

Establishment of an unusually large number of factories in Oakland during the past year were cited by Williams as the reason for the large increase, one of the largest in the history of the city.

**Alameda Apartments
Damaged By Blaze**

ALAMEDA, July 5.—An occupied stove started a fire at 9 o'clock this morning which partially destroyed the apartments and store at 415 Santa Clara avenue, owned by J. E. Wright. The damage was estimated at \$2000. The house was occupied by William E. E. Ellis Wright and R. Ford, who contacted the fire. The property was valued at \$13,000. An insurance of \$1000 on the building and \$1000 on the stock is said to cover the loss.

Tuesday is considered an unlucky day for weddings in Spain.

"Lefty" Foley on Trial as Alvarado Bank Robber

Crouched low in his chair and watching every movement of Deputy District Attorney Frank Shaw, as well as closely following every question put to the prospective jurors, and their respective answers, Thomas ("Lefty") Foley, alleged ex-convict and robber of the Alvarado bank, sat calmly today in a witness stand in the opening of his trial.

Due to the serious illness of his mother, District Attorney Ezra DeCoto, brother-in-law of Agent Shaw, president of the Alvarado bank, who had previously announced his intention to prosecute Foley, was unable to be present, entrusting the task to Frank Shaw.

Attorney Wesolo directed the questioning of the prospective jurors today. His first question asked of every juror was as follows:

"Are you acquainted with anyone in the district attorney's office or do you know anyone employed in the Alvarado bank?"

This question, he asserted, was asked because of the relationship of August May and District Attorney DeCoto.

The tentative jurors are: Marcela Larson, Livermore; Mrs. Mary Williams, 1615 East Twelfth street; Mary M. L. 442 Twelfth street; George McInerney, 310 Cherry street; Bercelet, Mrs. Ida Pace, 3640 Maple street; L. Goldman, 921 Applegate street; Mrs. Nettie Christensen, 2848 Chestnut street; Margaret Paul, 2230 Telegraph avenue; Mrs. Kathleen Hill, 403 Oakland avenue; William M. Filworth, 2428 East Twenty-third street; Mrs. Mary J. Crinnon, Livermore; Mrs. Sarah A. Pezet, 1335 Forty-seventh avenue.

CODY TO SELECT TRIBUNE CONTEST WINNERS TODAY

Six Girls Chosen By "Screen's Greatest Lover" Will Be Filmed Thursday.

The CODY PERSONALITY CONTEST closed today at noon. Law Cody, star of the motion picture world, termed the "greatest lover" of the screen, the judges who will select the winner, examined the hundreds of photographs that have been received by The TRIBUNE. Tomorrow morning Cody will select the six best girls, submit their names to The TRIBUNE.

In an afternoon edition of The TRIBUNE tomorrow, the names of the winners of the contest will be printed, in addition to their pictures. In selecting the winners, Cody, with the assistance of a committee picked jointly by The TRIBUNE and the management of the contest, will select the six girls who are appearing in person all week, will relate why the girls picked were selected as winners.

On Thursday, at a time to be announced tomorrow by The TRIBUNE, the six girls will be filmed, have screen tests made under the direction of Cody and the management of the T. & D. theater. And then Cody will select the final winner of the PERSONALITY CONTEST.

On Friday, in The TRIBUNE, the winner, picture and reasons why she was selected will be printed. To the winner is given the privilege of appearing with Cody in a love scene on the T. & D. stage on either Friday or Saturday evening. In addition she will be given the opportunity to appear with Cody in his next production to be filmed in the south.

Watch the afternoon editions of The TRIBUNE on Wednesday, Thursday and Friday for the final results of the PERSONALITY CONTEST. It might be YOU.

"WHISTLING TOM" GIVEN TEN DAYS IN COUNTY JAIL

SAN FRANCISCO, July 5.—After numerous complaints had been sent to the police about the night appearance of "Whistling Tom," Alfred W. Woberg was arrested today on charges of disturbing the peace and was given ten days in the county jail.

A number of women residing in the vicinity of Army and Noye streets claim to have been annoyed by a musical individual who would suddenly raise a window in their apartment house and whistle through it at them after nightfall.

A watch was set but the "Whistling Tom" failed to fall into the trap. Today Mrs. Bessie M. Woberg, wife of Alfred W. Woberg, who was in the house, ran out and captured Woberg, holding him until the arrival of the police.

The whole story was told to Police Judge Lazarus, who prescribed ten days' whistling in the county bastille.

Opinion Differs On 'Dollar Year' Manager

ALAMEDA, July 5.—Reports that a retired Alameda capitalist is to offer his services as city manager of Alameda, California, for a dollar a year apparently have precipitated a deluge of discussion in Alameda, with various city officials being appointed to investigate the matter.

Mayor Locke, officially qualified to settle all such questions, is on his vacation.

Article 7, Section 1, of the Alameda city charter provides: "The council shall appoint a city manager. He need not be a resident of the city of Alameda at the time of his appointment. His salary shall be fixed by the council, but shall not be less than \$3000 per annum. He shall hold office until removed by a four-fifths vote of the whole council."

With the provision of this section of the charter in the matter of salary, there is difference of opinion whether the "dollar a year" offer could not be accepted under an unofficial agreement by the holder of the office to return \$2000 of his salary as a gift.

The city council will meet in regular session this evening to act on the resignation of City Manager Hewes and the appointment of a successor.

Clean-Up Berkeley, Demand of Vollmer

BERKELEY, July 5.—Chief of Police August Vollmer appeared today before the Berkeley city council, asking that all citizens of Berkeley be properly forced to comply with the city ordinance requiring them to clean the property of all new buildings. He asked that the ordinance be framed so that efforts of the police department in enforcing the law could be facilitated. The matter was referred to City Attorney Frank Cornish.

Reassignment of the commissioners was made at the meeting of the city council, the first meeting in the fiscal year of 1921-1922. No changes were made other than that E. T. Harms, commissioner of public supply, was selected as vice-president of the council to replace Commissioner Charles D. Howard. Harms was nominated for the office by Heywood.

70-Year-Old 'Pugs' Stage First Battle

MEDFORD, Ore., July 5.—The referee's decision settled the fight between John Antle, 76, and James Bowline, 72, hale and hearty citizens, but failed to declare a winner, and a referee is still debating the power of their favorite.

The "boys" got into an altercation over a city lot. Words seemed useless, so they "beated" their fists. Antle, who weighed 150 lbs., was "missed." Young Bowline, however, with a right cross, The elusive "Kid" ducked and no damage was done. About this time George Timothy, 75, years old, chief of police, stepped in, deciding that both should be arrested. In the police court the referee was fined \$10 each.

Notes Bare Experiences Of User of Indian Hemp

BERKELEY, July 5.—The strange sensations which one experiences by the use of Cannabis indica, commonly known as "Indian hemp," a narcotic said to be in common use by the natives of India, have been explained in detail by Dr. Albert Schneider, dean of the Berkeley Police school, and a member of the Summer Session faculty of the University of California.

Dr. Schneider took three large doses of the narcotic in order to establish primarily whether the drug had the same effect upon a white man as it did upon orientals, heretofore a disputed subject. He said he found the effect the same as related by Orientals.

The test was made while Dr. Schneider was a member of the faculty of the University of Nebraska. While there he completed special investigations along another line, the result of which is a declaration by him that he has discovered the germ that causes cancer.

NOTE BOOK QUOTED.

Following are quotations from his note book, set out in detail just how it feels to take a "shot" of "hemp":

"9:20 p. m.—At rest in room. Had dinner at 6. Pulse and respiration normal. Took a little more than 3cc of a fresh preparation of Cannabis indica.

"9:40 p. m.—Pulse rather weak and irregular. Respiration somewhat irregular and disturbed. Tendency to forget an impression of a few moments previously. Some mental disquietude.

"9:50 p. m.—Pulse a little stronger than at 9:40, but action somewhat abnormal and irregular. Mentally somewhat disturbed and apprehensive. Precedential impression.

"10:00 p. m.—Pulse fair. Breathing somewhat difficult. Mental worry and feeling of oppression and of apprehension marked. Knees reflex somewhat increased. Have made a mental resolve to discontinue all subjective experiments in the future.

"10:10 p. m.—Pulse fair. Respiration nearly normal again. The mental oppression and apprehension come and go in flashes, but are very pronounced. Slight giddiness. Have reached the conclusion that the sensations made as to the stimulating effects of Cannabis, as recorded by various writers, is all wrong. Completely conscious of self and of the surroundings. Very transient death fear.

"10:20 p. m.—Pulse full and strong. Too much disturbed mentally to note respiration. Momentary amnesia. A lot of flashes, mental flashes. Skin becoming somewhat moist. All of the senses keener, vision especially. Mental fancy is changing. Still conscious of surroundings, but feeling of oppression and of apprehension of a second self develops. Fully conscious of the environment. Note that some one is moving in a adjoining room. Have reached the conviction that there is a Cannabis action. Slight trembling of the hands. Some general excitement. An indescribable feeling of grandeur and of grandeur is very suddenly developed. The words "fine," "superfine" and "grand" come to mind as applicable to the feeling.

"This indescribable feeling is entirely subjective. Self-consciousness is completely annihilated for a time. The conception of time, place and space have vanished. I say to myself, 'If this drug can produce such marvelous effects I will certainly take it often.' Recollect in flashes that I must exert self-control. I apparently exist in limitless space and my second or 'astral' self is everywhere, now here, now in remote lands, and again it cannot be located in any particular spot or place.

"10:30 p. m.—Pulse full and strong. No time for noting respiration though it was quite irregular. All mental apprehension and oppression is gone. Self-consciousness has returned and the wish is expressed that the feeling of exaltation might return. At the very next moment it has returned grander than ever before. Somewhat amused at the feeling of exaltation because without reason or cause. Mouth becoming dry. Made an attempt at an explanation of this very peculiar drug action. No conclusion can be formulated. Give it up. (Unable to jot down the variable and more or less mental effects, and at this point the record ends in an illegible scrawl.)

"GRANDEUR CONTINUES.

"10:40 p. m.—Unable (due to excited state) to record pulse state and respiration. Pulse good, however, and forgot to breathe for some moments. Acts more or less irrationally and apparently powerless and more irregular in nature. An insignificant detail of my watch lying before me excites my keen interest. The special senses are fully normal and even somewhat stimulated. The feeling of exaltation and of grandeur continues. Gait somewhat unsteady, but no definite sign of muscular inco-ordination. Thinking difficult. The second self seems in control. Mouth dry.

"10:50 p. m.—Pulse strong, full and regular. Memory fails completely, though fully conscious of environment. I feel myself incapable of accomplishing everything or anything. The exalted feeling much increased and wholly indescribable. The feeling of grandeur and of grandeur is very suddenly pronounced and definitely shaped."

Doctor Schneider states that in the subsequent two periods under the influence of grandeur and of grandeur were much the same, only less pronounced. He said that on the third dose he secured the feeling of disgust with the drug, probably because the dose was smaller, he explained.

FIREWORKS LAW INADEQUATE, IS BELIEF OF CHIEF

SAN FRANCISCO, July 5.—Chief of Police Daniel O'Brien announced today that he would recommend a state law to prevent the sale of fireworks. He said it was impossible for San Francisco to guard against death, injury and loss as a result of firecrackers when many of the neighboring counties are exempted, while anyone who came to buy.

He said that there have been comparatively few sales of fireworks here and that most of those used are brought in from the outside.

Parisian Actresses Run Own Theaters

PARIS, July 5.—The entrance of women into the field of directing French theatrical enterprises has taken on the aspect of real invasion.

Mme. Sarah Bernhardt and the late Mme. Ugeux were the first French women to direct their own theaters. Today Mme. Rellie directs the Dejazet theater. Mme. Core Laparcerie, who formerly directed the Bouffes-Parisiens is now at the Renaissance. Mme. Constance Malle directs the Marigny and Mme. Pauline Bayard directs the Theatre de la Gaite-Lyrique, besides supervising numerous revues. Jane Renouardt's new theater is nearing completion and Maud Loti is about to assume the directorship of the Imperial.

To date most of the enterprises conducted by women have been quite successful.

Police Probe Death Of Coffee Merchant

Nick Karanikolas, a coffee merchant, was found dead in his room at 561 Eighth street this morning by Mrs. Olive Wilkins, the landlady of the rooming house. She went to his room this morning at 8 o'clock and found the door locked. She returned at 11:30 and used a pass key to get into the room. Karanikolas was in bed dead. According to his partner, Gus Karas, he was in the best of health. The case was investigated by Police Inspector Charles Appleton who says that there was no indication of foul play. An autopsy will be performed by the coroner to determine the cause of death.

Home Brewing Gets Approval of Pastor

COLUMBUS, Mass., July 5.—"Everyone has the right to brew a little bit of beer in his own home. This is his personal freedom, and nothing should take away the right from him," declared Rev. Dr. L. G. Lendenberger of St. Louis, speaking before the annual convention of the New church members here.

LAW TO BE TESTED.

COLUMBUS, Kas., July 5.—An attack on the validity of the Kansas Industrial Court law is made in the motion filed for a new trial in the case of Alexander Howat and August Eorchy, miners, union officials, convicted by a jury in district court last week of violating the Industrial Court law by calling a strike.

MAN SINGS AS HE FIRES SHOT INTO HIS HEAD

Despondent Because of Death Sentence Passed By Physician.

Brooding, the police say, over an ultimatum from his physician that he never could regain his health, Samuel Lazzeroni, a retired merchant, living at 347 Filbert street, attempted today to blow his brains out with a shotgun. Lazzeroni discharged the gun by tying one end of a piece of string to his foot and the other to the trigger of the gun. Lazzeroni was sitting in the kitchen, while Mrs. Lazzeroni prepared lunch. George Burbank, when he excused himself and went into his room toward the front of the house. She heard him singing, she said, when the song was interrupted by the explosion of a shotgun in the bathroom. There she found Lazzeroni lying face down on the floor with half of his face shot away. Rushing into the street, Mrs. Lazzeroni enlisted the aid of R. I. Valpar, who notified the police. Lazzeroni was rushed to the Central emergency hospital, where physicians declare he has small chance for recovery.

Fireworks Burns Kill San Jose Girl

SAN JOSE, July 5.—Joyce McLaughlin, 6 years of age, died at noon today as a result of burns received Sunday, when her dress became ignited from fireworks. She was playing in the street with her brother when the accident occurred.

GIRL DIES IN HOTEL FIRE

FLORENCE WHITING, lost her life in a hotel fire here because she refused to take a chance in jumping from a third floor window. Her body and that of Richard Estman, another employee of the Canoe Place Inn, was found in the ruins. Damage was estimated at \$50,000.

Berlin Reporter Is Fired; Too Much American "Pep"

By KARL H. VON WIEGAND, BERLIN, July 4.—"Fired" for having interviewed the wife of the president of Germany was the reward meted out to Frank Henius, an American trained newspaperman and author of a textbook on exports, for his American journalistic "pep" and enterprise.

Henius, who has worked on newspapers in New Orleans, San Francisco, Portland and New York, arrived in Berlin the other day to visit his aged father, now here. He concluded that some of the German newspapers were badly in need of progressive reforms in the matter of getting and writing news and that a bit of American reportorial "pep" would shake up traditional bones and methods a bit. He decided that the Berlin press offered an excellent field for a real live reporter, since here every member on a newspaper staff is "editor."

As he speaks some ten languages he was sure he could teach the Germans something.

REPORTER FIRED.

His substitute fired the reporter, expressing his surprise and indignation that Henius should have attempted, without consulting anyone, "to bring the name of Frau Ebert into this refined, high-class newspaper."

Not knowing that Henius already had had the interview, the president's office, it is said, was informed that the request for an interview was unauthorized by the paper and really was not wanted. Henius was dismissed on the technical charge of using an office letterhead without due authorization.

"We want no American 'big guns' on our paper," the editor told the reporter.

forbids Germany having anything to do with big guns. Give my ten days' salary to the Red Cross," was Henius' farewell shot.

"Talk about efficiency and system in Germany," remarked Henius after his experience. "Why, it took four signatures in that office to get an old newspaper out of the files."

CHURCH LOSSES STRUGGLE. CARO, Mich., July 6.—A battle of fifty-nine years against hardship has ended with the dissolution of the First Baptist church in the village of Unionville, several miles from here. Eleven members was the crest reached by the church. When organized, it had six members, only one of whom is now living. He is Roswell Surin. Four years ago the church edifice was sold to meet fast accumulating debts, but, despite that, the church society continued to function up until last week.

Deleted Treaty Urged As Basis For Peace

WASHINGTON, July 3.—Differences as to how a final peace with Germany shall be brought about were coming to the top today following final enactment of the peace resolution.

Secretary Hughes is said to favor deleting all but the purely economic clauses of the treaty of Versailles and making this deleted treaty the basis of peace. Hughes is credited with persuading President Harding to make a declaration for this course in his message to Congress.

AMERICAN ARMY OF OCCUPATION TO WITHDRAW SOON

Anthony Says U. S. Troops
Will Be Sent Home
Within Month.

By HERBERT W. WALKER,
United Press Staff Correspondent.
WASHINGTON, July 3.—Ameri-
can forces in Germany will be with-
drawn within the next few weeks as
a result of the final enactment of the
peace resolution, Representative An-
thony, Kansas, in charge of the army
appropriations in the House, said
today.

He declared that appropriations
for the army for the current fiscal
year are so limited that the War De-
partment will be forced to return the
troops within a month or violate the
Borah amendment to the army ap-
propriation bill, which prohibits the
incorporation of any deficiencies.

Now that the peace resolution is
passed, the troops should be with-
drawn at the earliest possible date,
said Anthony. They have been a
big burden on the American taxpayer.
Although the understanding was
that Germany was to pay all ex-
penses. The cost of the army of oc-
cupation has been about \$275,000-
\$300,000, according to my informa-
tion, and the balance has come out
of the treasury. Germany of course
will readily agree to the withdrawal
of the troops.

ACTIVITIES OF WOMEN

Golf Devotees Spend Fourth At Del Monte

The Fourth of July celebration at
Del Monte will go down in social his-
tory as one of the biggest affairs
which that fashionable resort has
staged in years, with the golf tourna-
ment attracting the greatest interest
and polo matches and tennis tour-
neys furnishing additional diversion
to players and spectators.

The residents of Pebble Beach
kept open house over the 4th, and
many enjoyable social affairs were
staged. The Del Monte Lodge, the
Palm Grill, the Hotel Del Monte
and the golf clubhouse were also the
scenes of many gay parties.

Among those who attended were
Mr. and Mrs. Fred B. Bain and Rudy
Bain, of Piedmont; Mr. and Mrs.
Walton Norwood Moore and Miss
Elizabeth Moore, of Piedmont; Mr.
and Mrs. F. H. Dailes, Napa; Mr.
and Mrs. A. E. De Armond, Berkeley;
Mr. and Mrs. F. M. Hunter, and
Miss Frances Movat of Pasadena;
Mr. and Mrs. H. M. Storey and
Miss Dorothy Storey of Piedmont;
Mr. and Mrs. M. J. Savage of San
Francisco; Mr. and Mrs. Frederick
L. Palmer, Mrs. E. B. Rogers, Mr.
and Mrs. R. J. Hanna, Miss Virginia
Hanna, Miss Adrienne Sharp, Mr.
and Mrs. E. L. Dow, Mr. and Mrs.
L. V. Bentley, Mr. and Mrs. J. P.
Linghorne, Mrs. William Alston
Hayne, Mr. and Mrs. R. I. Bentley,
Miss Katherine Benth, Dr. James
Eaves, R. E. Hanna, Mr. and Mrs.
John E. Houston, Dr. and Mrs. C. F.
Ford, Mr. and Mrs. W. G. McMahan,
Charles G. Bush, Jr., Mr. and Mrs.
Paul T. Carroll, all of San Francisco;
Mr. and Mrs. J. E. Sloan and Char-
lotte Sloan of San Jose; Mr. and
Mrs. W. C. Emery of San Francisco;
John Perrin San Francisco, Mr. and
Mrs. F. J. Walker and Miss Marjory
Walker of Piedmont; Mrs. L. H. Hu-
sbury of Oakland; Mrs. N. Wright
Vaughan of New York City.

TO GRADUATE FROM HARVARD

In the graduating class at Harvard
this month was Archibald von Ade-
lung, son of Dr. and Mrs. Edward
von Adelung of this city.

Tahoe Tavern is attracting a num-
ber of guests this month from the
east side of the bay. In a fortnight
Mr. and Mrs. John Hostatter of Pied-
mont will go to the lake for a month.
Mr. and Mrs. Edwin Lett Oliver and
Mr. and Mrs. Leslie Oliver, with
their children, left last week for the
resort. Mrs. George Lyman King
is also registered at the Tavern with
her family.

One of the newest engagements to
be announced this month is that of
Miss Phyllis Galt Nordin, daughter
of Mrs. A. Nordin of Claremont, to
Marion O. Overman. The wedding is
to take place in the early fall.

Miss Nordin is a sister of Mrs. Bar-
nette Fisher (Ethel Galt Nordin),
who was graduated from the Oak-
land Technical High school.
Overman has received his degree
from the College of Pharmacy at the
State University this year. He is a
member of the Phi Delta Chi frater-
nity.

WEDDING IN TRINITY CHURCH

Trinity Episcopal church was the
scene of a beautifully appointed wed-
ding Wednesday evening, when the
marriage of Miss Miriam Krause and
Leonard C. Macdonald was solemn-
ized by the Rev. Lloyd Thomas.
Pink roses in large baskets and
greenery were arranged on the altar.
John F. Doyle of Alameda, who
was in the same A. E. F. battalion as
the bridegroom, sang "Beloved, It
Is Morn."

A quartet of bridesmaids—Miss
Alta Copps, Miss Hazel Westlake,
Miss Prada Moon and Mrs. Lloyd
Ashmore, gown in organdie and
carrying bouquets of pink sweet peas,
formed an archway for the bride.
The bride was in white duchess satin,
trimmed in princess lace, and em-
brodered in seed pearls. She wore
the conventional veil and orange
blossoms and carried a shower bu-
quet of pink rose buds and lilies of
the valley.

Miss Florence Krause, in a gown of
white georgette, embroidered with
over pink taffeta, was maid of
honor for her sister and carried a
shower bouquet of pink and orchid
scabiosa.

Lloyd Ashmore was best man and
Lauren Marquardt and Archie Marr
served as ushers.

Following the wedding, a reception
was held at the home of the bride's
mother in Randolph Avenue.

The marriage is of interest to the
eastbay because by it two old families
are united, the bride being the
daughter of Mrs. Orra S. Krause and
the late Frederick L. Krause, an
Oakland attorney. The bridegroom
is the son of Mr. and Mrs. W. D.
Macdonald.

Following a motor trip to Lake
Tahoe, the couple will reside in Oak-
land, where the bridegroom is in
business.

TO TOUR SOUTH AND MEXICO

Mrs. A. Lindgren and her two sons,
Wendell and Russell, will spend the
next fortnight motoring through
southern California and Mexico.

En route to Europe are Mrs. James
McVicar Mills of Berkeley and her
two daughters—Mrs. Paul Delano
Cadman and Miss Margaret Mills—
who will join Paul Cadman in Paris.
With them will journey Miss Anne
Fraser.

Mrs. Ethyl Oberg was honored at a
birthday party given at her home
Saturday evening. Great masses of
pink and yellow gladiolas and ferns
were used in the decorations.
Dancing was enjoyed by the guests
until late in the evening, when sup-
per was served.

Those present were the Misses
Dorothy Hedberg, Ruth Muir, Hester
Olsen, Gladys Clancy, Ethyl Oberg,
Jean Ferreira, Alice Muir, Thelma
Clancy, Inabell Allen, Mae Oberg,
Minnie Irving Chapman, Clifford
Olsen, Walter Lloyd, Henry Law-
rence, Robert and William Pringle,
Orlando Olsen, Ray Chapman, Mr.
and Mrs. O. Knudsen, and Mr. and
Mrs. J. Oberg.

Saturday evening at Pleasanton
Miss Dorothy McNaughton was ten-

NEW YORK, July 3.—Cooling
down and a decided drop in the
temperature today brought re-
lief to New York after one of the
most stifling days in the city's his-
tory.

Three deaths occurred on the
fourth of July directly from the
heat. Scores were prostrated. Nine
persons who sought relief from the
heat by bathing were drowned.

PHILADELPHIA, July 3.—Three
drownings, four heat prostrations
and the highest temperature of the
year marked Independence Day.

MILWAUKEE, July 3.—Six per-
sons gave from Milwaukee were
drowned and another killed in an
automobile accident during fourth
of July celebrations here and adja-
cent resorts. Heat claimed two
lives.

CLEVELAND, O., July 3.—John
Shells, 61, fell victim to a fourth
of July celebration here last
night when a neighbor placed a
cartridge on the sidewalk fifty feet
away and struck it with a hammer.

SANTA BARBARA, July 3.—Put-
ting a piece of lighted punk in a
pocket containing crackers, Evan
Rudkin, 9 years old, set fire to
his clothing and suffered burns from
which he died a few hours later at
a hospital here. The clothing was
burned from her body.

Friends of Last of Hawaiian King, Die

HONOLULU, T. H., July 3.—A
landmark in the receding memories
of the Hawaiian monarchy was
marked yesterday by the deaths of
three Americans well known at the
court of the late King Kalia. A
before the coming of the American
regime. Private advice told of the
deaths in London of Clarence W.
Ashford, former member of the
net of the late king and Mrs. Eva
Newman, a friend of the
king and the late Queen Liliuokalani.
Alan Herbert, formerly of Grass
Valley, Calif., and for years a friend
here and in other cities. London
Ont. reports that the mercury
reached 100 degrees.

The last unaccompanied by rains
is causing considerable apprehen-
sion in some parts of Canada due
to the danger of forest fires. Many
small fires have been reported in the
northern part of Ontario and it was
feared the entire section might be
trapped in a great conflagration.

CONWAY, Ark., July 3.—A double
killing was the outcome of the
Fourth of July celebration here.
Mrs. Sidney Adams was shot and
killed by Mr. Pearson who in turn
was killed by Mr. Adams who was
wounded by a bullet.

ATLANTA, Ga., July 3.—Three
persons were killed and four
probably fatally hurt when the
Jonesboro automobile race took place
in the Central Georgia racing track
in automobile at a speed of 100 m.p.h.
in East Atlanta today.

PITTSBURGH, Pa., July 3.—One
motorist was wounded and another
injured seriously by stray
bullets from pistols fired in cele-
bration of Independence Day. Ac-
cording to police authorities here,
Three other persons in the district
were reported to police in the dis-
trict as the result of the three deaths.

of the royal couple, died here at the
age of 83.
Judge Ashford was a prominent
figure in the early pre-nation history
of the islands. During the distur-
bances following the overthrow of the
monarchy he was exiled to San Fran-
cisco. He returned when order was
restored and for many years was
judge of the United States court
here. He retired from the bank at
17 years ago and later went to Lon-
don.
Mrs. Newman was the daughter of
the late Paul Newman of San Fran-
cisco where she was born fifty years

HEINZ
OVEN BAKED
BEANS
with Tomato Sauce

Good news from the kitchen!
A fragrant whiff that adds zest
to the appetite! A foretaste of
what's coming! The assurance
of a delicious meal—all ready
to eat in just no time at all!

Heinz Baked Beans are good,
rich, meaty and wholesome be-
cause they are oven baked.
This preserves the real bean
flavor and the real bean nutri-
ment, and thus gives you the
most food value for your money.

Blended with the rich oven
baked bean flavor is the deli-
cious tang of the Tomato Sauce
made famous by its use in the
preparation of some of the "57".

So the good news "from the
kitchen" is really from the spot-
less kitchens of Heinz.

Tribune Clarice Patterns

Most distinctive and up-to-date patterns in America for readers of The Oakland Tribune. Watch this column daily and order through THE TRIBUNE just what you want.

Boys' Blouse.

(Number 9442.)

During the summer a boy requires a great many wash blouses to keep him looking presentable, and, as they are not at all difficult to make, mother will find that with the aid of this pattern several could be made up at little expense. There are two styles of collars included and the use of the back yoke is optional.

The boys' blouse is cut in sizes 4 to 12 years. Size 8 requires 2 yards 32-inch material. Price 15 cents.

Just Folks

by Edgar A. Guest

HOWDY, MISTER SUNSHINE

Here's Howdy, Mister Sunshine, for you're welcome round the place. We're mighty glad to greet you and to see your smiling face. Just nose around the blossoms in the garden as you will, And do a little dancing on each dusty window sill; There's a sleepy boy up yonder that will give you back a smile If you'll let your brightest sunbeam go and tickle him awhile.

Here's Howdy, Mister Sunshine an' we're mighty glad you're back. Come along an' spill the roses an' the peaches from your pack; There's a pair of little robins in the elm tree nestin' high, That have waited for your coming; an' today I guess they'll fly Coz I've heard their mother tellin' to those most impatient things That the first day it was sunny she would let 'em try their wings.

Here's Howdy, Mister Sunshine, an' a welcome that is true, Every living thing, I fancy, gets the breath of life from you; An' I don't know if you know it, but the baby seems to grin Just a little more delighted when you're ticklin' of his chin. An' the old man in his corner with his journey almost done, Finds a thousand joys to please him when he's sittin' in the sun.

Here's Howdy, Mister Sunshine! Oh, it seems to me our girls Are loveliest the mornings you are dancin' in their curls, An' though we must have sorrow an' there must be days of rain, The joy is all the sweeter when you come to us again. So it's Howdy, Mister Sunshine, from the lips of man an' boy, An' the women folks who love you—here's a day we'll all enjoy.

Daily ALMANAC

by Ad. Schuster.

TUESDAY, JULY 5

The day after the Fourth. What a lot of small boys think of police department regulations regarding celebrations is not fit for family reading. New Haven, Conn., which of course has nothing to do with the rest of this, was attacked by Indians on this day in 1779. In 1801 David G. Farragut, first admiral of the American navy, was born and his folks said: "Isn't it too bad he wasn't born on the Fourth." Phineas T. Barnum, the circus man, was born in 1810.

The New York actress who contemplates refusing a bequest of \$2,000,000 will continue to contemplate until her contemplation has lost its publicity value.

MEXICAN SAUCE.

(Ontario Notes in San Bernardino Sun.)

Some small excitement was caused today when a Mexican heaved a small can of gasoline into a fire built in a pit at the rear of the California theater in preparation for the barbecue which preceded tonight's strike lodge. A minor explosion resulted, but no one was injured and there was no damage.

WOOD-ROCKER.

(Visalia Times.)

Licensed to wed: Clarence A. Wood and Alice Justina Rucker.

Considering the fact that almost everyone in the United States predicted Dempsey would win it is a little bit strange to find one or two men who are not claiming laurels as prophets.

Sir: You asked the other day who is Sam Hill was Sam Hill. He is editor of the Brentwood News—H. K.

Odd and Interesting Facts

The total war debt of the world is estimated at \$200,000,000,000.

One-half of the women between fifteen and forty-five are unmarried.

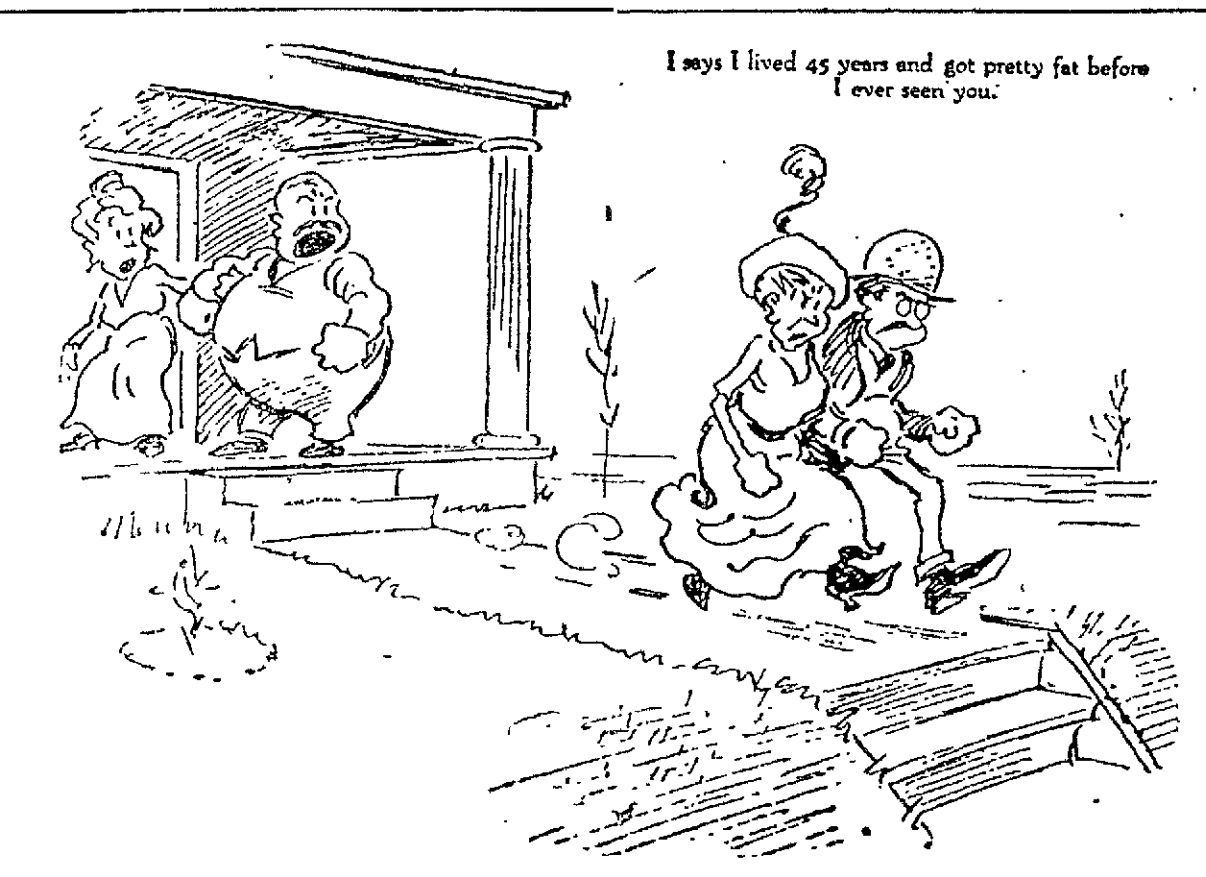

The pelican is commendably regular in his habits. The parent birds catch fish and are eating their young. If the wife dies first the husband lives another nine years.

under their bills and carry them to their young. These pouches will hold from three to eight pounds of fish.

If the husband dies first the wife lives, on the average, another eleven years. If the wife dies first the husband lives another nine years.

WELCOME TO OUR CITY

By Ring W. Lardner

Alison, Ill., Oct. 11.

Brother Charley, well Charley we had some more trouble since the last time I wrote you a letter only I don't know if its trouble or not but Grace feels pretty bad about it. I say she shouldn't ought to worry because the Carrys wasn't no good any way. Grace was figuring on his side Mrs. Carry came over & stay with the children while we was to the bid dance next wk. if Mrs. Carry wasn't going to the dance she says no what dance & Grace says no what dance & Grace would come over & take care of the children or that is she & Mr. Carry would just half to set in the house because the children would be a sleep only of course it would be right to go off & leave them a lone & the Carrys could just set here & play cards or do any thing they had a mind to. Well Mrs. Carry an' we was giving the dance & Grace says the invitation was signed by Wm.

Marston & he was the man that the money was to be sent to only Im going to take my money a long to the dance & give it to him at the door. Well Mrs. Carey says why Mr. Marston is the real society leader & Grace says well what of it & Mrs. Carey says it must of been a miss take you getting a invitation & then I buten in & says what do you mean a miss take I guess yes as good as any body & better than some & why shouldn't we get a invitation & then Mrs. Carey showed up & says I suppose you think you better than I & my husband & I says no I don't think no such thing & she says well you got a invitation to the dance & we didn't so if you got that well show you think you better than us.

I says I don't show no such a thing because you not getting no invitation was probly a miss take & she says no it wasn't no miss take & you getting it was the miss take & then Mrs. Carey flew up & says she was giving the dance & Grace says the invitation was signed by Wm.

his wife & Grace & I all lost our temper & we had it hot & heavy & I guess you know Charley that we didn't get none the worst of it. so finely I told them to go home and they says you dont half to tell us to go home & whats more you wont see no more of us & I says I lived 45 yrs & got pretty fat before I ever seen you & thats a bout all that was said & they beat it and wear threw with them. If Mrs. Carry had of some of his might of fixed it up for them to get asto the next big dance only she was so sore a bout us getting a head of them that she couldn't keep her mouth shut.

I guess you can see that Mrs. Carry aint going to take care of the children while wear to the dance & even if she would we wouldn't let her because its 10 to 1 she would stick a knife in them or give them a cloriform or some thing. and Grace will half to higher a girl from here in town to come & set in the house while wear to the dance.

kindest regards to your self & Mary.

3 Minute Journeys

The Country of UPSIDE DOWN

By Jack Durroughs

Chapter 17

The Oratorical Phonograph

"A LEG of iron!" cried Alex allowing his way through the crowd until he had reached the platform beside the mountain of beany-caps.

"Young man," said His Scrumptiousness the Distributor of Beany Caps, "have you no manners? Don't you know that boys should never break through the ropes which beany-caps are being distributed?"

Superdreadnaught B. B. Bumble left off whittling his wooden leg and was about to scold Alex too, when one of the delivery pigeons came forward. It was the same one to whom Alex had returned the beany-cap a short time before. He explained how he had made Alex's acquaintance, and by way of introducing Alex, he handed His Scrumptiousness the burnt orange and purple beany-cap, with Alex's full name pinned inside.

"Well, well, I seem to have judged you somewhat harshly, my young friend," said His Scrumptiousness. "It was handsome of you to return the beany-cap to the delivery pigeon. Just for that you may have the burnt orange and purple beany-cap to keep."

"Thank you, sir," said Alex, putting the new cap on his head.

"And what is more," His Scrumptiousness continued, "you shall have a new beany-cap for every day in the year."

So overcome was Alex by this sudden good fortune, he was unable to thank the kind Distributor.

His Scrumptiousness noticed this confusion on Alex's part and, to put him at his ease he said: "What was that you said a while ago about an iron leg, Alex?"

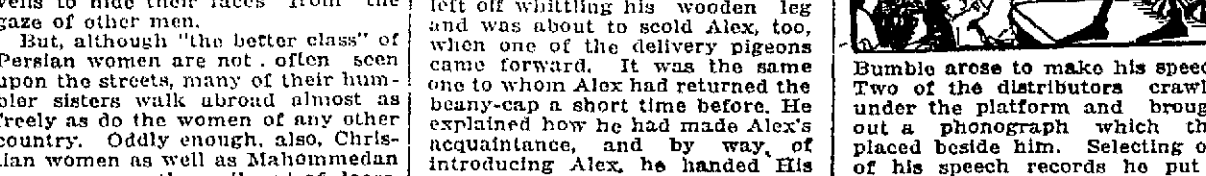

Alex recited the poem about the iron leg, and respectfully suggested that if Superdreadnaught B. B. Bumble had a leg like that he would not be broken at all.

When in one of his absent minded moods.

His Scrumptiousness and Superdreadnaught B. B. Bumble were deeply impressed by what Alex said, and declared they would carry out his suggestion the very next day.

"And now let the distribution of beany-caps begin," said His Scrumptiousness. Immediately his staff of distributors made their way through the crowd and fell to passsing out the beany-caps to the boys. Soon the mountain of beany-caps began to grow smaller and the crowd began to thin out.

While the caps were being given away Superdreadnaught B. B.

Bumble arose to make his speech. Two of the distributors crawled under the platform and brought out a phonograph which they placed beside him. Selecting one of his speech records he put it on the phonograph and as the speech began to pour out of the horn he rested one hand on the hilt of his sword, thrust the other under the models that cluttered up his polka dotted breast and cleared his throat in a loud and impressive manner.

It was a long speech and part of it was in verse. It concluded with the following poem:

It's fine to have a phonograph,
For it can talk and sing and laugh,
And though its voice is full of
The whole world listens when it speaks.

It has no notion what it's saying—
Mere idle chaff or words worth weighing.
In this respect it's much the same
As many orators of fame.

Sweet phonograph, grind on forever,
Say things profound, and true and clever,
And though your voice be full of
scratches,
You'll bring me fame in bales and beaches.

(Continued Tomorrow)

Husband and Wife

First of all accept a father's hearty praise for your work in the "TRIBUTE"—"Cry on Geraldine's Shoulder." A greater work can no man or woman do than you are doing. You never will get a review in "money" or "power" for it can't be done. Talk about big things, you have one of the biggest jobs in America. If you don't think so, know about the divorce colony of Reno, Nevada, as I do. The heartaches and the sorrow, real and unreal; the misadventures, misjudged human souls, for the real part of them Jerry is soul, though disease, yet even crime hides their beauty. You are just doing as the Master did, "Neither do I condemn them, go and sin no more."

The crying need of the churches of today is more real interest in human being and not so much in money. Jesus never asked for a cent in Roman money or other wise, yet look what he did for the human race.

You are a physician, did you

Santa Clara Prune Pudding.

One-fourth pound stoned prunes chopped fine, two cups of bread crumbs, one cup of sugar, one-half pound of suet chopped fine, two eggs, the grated rind and juice of one lemon, one tablespoonful molasses or treacle, one-half grated nutmeg, one tablespoonful flour. Steam three hours and serve with boiled sauce flavored with lemon.

Cry on Geraldine's Shoulder

Did you ever pan gold? It's an interesting process. You scoop up a panful of broken rock and earth out of the broken rock and hopeless looking panful—utterly commonplace. Then you pour some water on it. And now perhaps you think the gold will suddenly be revealed, shining amidst the muck. Not at all. The panning has just begun.

You settle yourself by the stream and the real job starts. Around and around you stir and joggle and dip that pan. Around and around in merciless jostling, the contents whirl in a circle. Constantly you renew the water, and constantly the water runs off, thick and foul with the dross which you are washing away.

It's not done quickly or easily. It's hard on your wrist and back, and it must be sorted and discarded so pitilessly. But at last, in the final, small handful of bare, dazed grit, the gold has been revealed. And you know the value of your ore by the quantity of the mineral which could not be washed away.

I wonder if Life pans humans

Jerry always likes to play Cupid and this time she's so thrilled by the prospect that only the thought of the Traffic Clock keeps her from dressing in a one-piece bathing and a wreath of roses and skipping out to shoot little arrows at the Passer-by. However, it's a cruel world, so I'll have to do my heart throbs in my Reglar' Clothes and respond to "H. K. H." from the dreary confines of an editorial office.

Dear Jerry:

I am not the kind that believes in crying on anybody's shoulder, but I'm at my wit's end, and when a friend said to me in fun the other night to tell it to Geraldine, I'm not sure I don't do so.

I come from a family that dates back to the Virginia colony, and my mother is very proud and thinks I should marry someone of her blood and name as ours. Until recently I thought the same, but not now.

Two months ago I came off of a job in the mountains where I had been for over a year without any kind of amusement. Naturally when I got back here I made the rounds of all places where I figured I might have some fun, ending in one of the dance halls. That's where my story really begins, as that is where the girl enters it. She was not the ordinary type of date hall girl (I say so not because she is no longer there), but she was the kind of girl in looks and actions I had always dreamed of as the mother of my children.

When I asked her to let me accompany her home, she refused, saying she never went home with a man, so I didn't press the point. For over a week I went there every night and danced with her until finally she let me take her as far as her door. It was then I prevailed on her to give up the dance hall.

Now I know she loves me and I love her and want her more than anything in the world, but if I marry her it will break my mother's heart. I don't know what to do, but both she and my father call disgrace on the family name.

I can't make a decision. Should I give up the only girl I could ever love for my mother and father, or vice versa? I'm no kid, Jerry, having passed my twenty-fifth birthday, and I'm ashamed that I can't make this light choice. What do you think, O H. K. H.?

Man, that little girl sounds like a twenty-four carat gold proposition to me—and I'd bank on her every time. I have a big hunch that if you marry her, mother's and father's hearts won't be broken at all, but just pleasantly stimulated for a whole new lease on life. At any rate, by the time you've reached twenty-five, MARRIAGE IS ABOUT OWN. I'd bet you to decide FOR YOURSELF and no one, not even the dearest of relations, has a right to dictate or interfere.

Then, again, Jerry, girls of France, Italy, Egypt and Bohemia find a home in these Bay cities, and taking in their natural immaturity, I subscribe to the requirements of men of today. "Up" and go to the extreme limit in dress. Yes, homes must be wrecked and hearts broken, doctor, before the tide turns.

Not until this "Jazz" generation passes, will "Jazz" cease to be with us, for it's the fashion, the up-to-date stunt. Girls to be natural, to subscribe to the requirements of men of today, "Up" and go to the extreme limit in dress. Yes, homes must be wrecked and hearts broken, doctor, before the tide turns.

Holding Husband

by Adele Garrison

(Continued From Yesterday.)

What had he discovered? I racked my brain with the question as we walked through the pine woods to the bank of the little lake which I had first seen upon the day of Maj. Grantland's coming to me not to go outside the house unaccompanied by my husband, my father or some other man.

Indeed, I had never seen it after that first time. I had felt a certain disinclination to visit it alone, the memory of Hugh Grantland's warning lingered unpleasantly in my mind, even after all necessity for mine even after all necessity for mine acting upon it had vanished. But now, with Dicky by my side, a smiling, good-natured companion, instead of a grouchy one, the picturesque little sheet of water, the pines dancing in the sunshine, appeared to me strongly.

I turned to Dicky impetuously. "Don't you think anything unpleasant for a few minutes?" I asked. "It's too beautiful here to do anything but—"

"Let's invite one's soul," he quoted. "Sure thing," I said. "I haven't the book of verses, and the jug of wine, alas!—that never more may be—but the bough is certainly here and the birds are singing. Distasteful as you begin to sing around this wilderness, I vouchsafe. I'm a faithful disciple of old Omar, but he must have needed the jug of wine to put up with that part of the program."

"I'll promise to be as still as a mouse," I said, laughing, as I seated myself on a rustic bench under a towering pine.

Dicky stretched himself on the sand at my feet and rolled over contentedly.

"This is the life!" he said, looking up at me for agreement.

But I was not looking at him. My eyes were fixed upon a strip of paper which he had slipped from his pocket and had fluttered to the ground. If I were not mistaken, it was the telegram from Lillian concerning the will, which I had decoded and had neglected to destroy.

His Wife Dicky Astonished Madgo.

Dicky's eyes followed mine to where the piece of paper was, the decoded telegram written upon it. He grinned and reached for it. He waved it in front of me.

"The fates are against you, old dear," he said. "You think you can postpone the evil hour of reckoning, and here the clock is turning up and confronting you like one of Dicky's basilisk thing-um-a-bobs. Better turn the beauty of this scene and look upon this evidence of your life. Dicky's knowledge of my responsibility for Lillian Brown's departure."

"Where do you get this?" I demanded, but was conscious that my dignity was merely a bolstered-up affair which might come tumbling down at any moment.

"On the floor where the beautiful geyser detective most carelessly dropped it," Dicky retorted mockingly. "Very careless work, old dear!—he shook his head mournfully—"think we've lost it, once you and put back to patrolling a beat for awhile."

"Oh, don't be so ridiculous!" I said, pettishly. "I was very tired, I was very nervous, I was very exasperated as I was at my own carelessness. How in the world could I have lost this paper?—why in the world had I dropped it?—my mind was ringing the changes on these questions even as I read over again the words in which I had decoded the telegram Lillian had sent me concerning 'the will.'"

"Would you rather I were serious?"

There was a note in Dicky's voice which I had heard but two or three times in my married life—a note which I can only describe as that of conscious authority. I do not mean that he has ever tried to be "bossy" and have manliness, but his exhibition of authority in those moods has appeared to me to be the truth. But at the intonation I had just heard, I braced myself mentally and physically to hold out something worth while from my husband's lips, no matter whether it were pleasant or unpleasant to me.

"Much more," I said quietly. "In the first place, then, why didn't you come to me with this?"

"To you?" I answered faintly, before I could repress the words, and realized even as I uttered them that the unconscious emphasis I had put upon the pronoun could not help but hold a sting for my husband.

There was a look of bitterness in the suddenly angry eyes he turned on me.

"Yes, to me. I had all that dope years ago."

I was loath to keep my voice from Jerry, but Dicky must have seen the amazement in my eyes, for his own grew harder as he went on.

"As it happens, Jerry, I don't think I should have told you that stuff up for Lillian when she took a notion she happened to want it."

I drew a deep breath and asked: "Did Lillian know that you knew?"

(Continued Tomorrow.)

poem and may do someone else some good.

SMILE.

"Things are not always what they are. For we never tell just what we dream. The laughing day—and lips may smile while eyes are dim meanwhile. With unshed tears, you sing a song. Yet no one knows, dear— If you'll smile!"

Your heart may ache— Yes ache until it almost breaks With sorrow—as you sing a song. Who now is gone— Yet no one knows, dear— If you'll smile!"

R. C.

Dear Brave R. C.—Your Jerry's sorry for the pain.

Geraldine

ROALD AMUNDSEN REACHES SEATTLE FROM FAR NORTH

Famed Explorer Tells of His Experiences in Arctic; Will Try Again.

SEATTLE, Wash., July 5. (By the Associated Press).—Roald Amundsen, discoverer of the South pole and seeker of the North pole, arrived here last night on the steamship Victoria from Nome, Alaska, where he appeared the middle of June after leaving the explorative schooner Maude at Cape Serge, disabled by a broken propeller.

Discussing his plans, Captain Amundsen seemed so convinced of the existence of an ocean current flowing from Siberia to Greenland as when, in 1918, he sailed north from Norway aboard the Maude.

Captain Amundsen said he had not

decided how he would pass the year in America. Probably he would go east later, he remarked, but he intended to spend the summer around Seattle.

Despite the Maude's mishap, he expressed faith in her. "I don't believe," he commented, "I could have found a vessel better suited to my needs."

WILL TRY AGAIN.

"We proceeded from Norway without a mishap," recalled Captain Amundsen, "until we were caught in the ice at Cape Chelyuskin on the Siberian coast. Here we were held, unable to proceed, for a year. Then the ice broke and we resumed our journey. This time we got as far as the mouth of the Kolima river, where we were ice bound again. That was in September, 1919. We got back to Nome the following year.

"When we started out again in August, 1920, we found ice conditions very bad. That accounts for the broken propeller that compelled us to abandon further attempts."

"In about a year I expect to start out from Nome in the same direction as before. Probably we will remain in the Polar regions for three to five years."

HAD PLENTY OF FOOD.

Captain Amundsen, looking healthily rugged and younger than his 50 years, made light of any hardships experienced on his perilous voyage. "We had plenty of food," he pointed out. "We were fairly comfortable."

Captain Amundsen was met at the

Mrs. Coolidge Breaks Arm on Arizona Trip

BERKELEY, July 5.—Mrs. Mary Roberts Coolidge, writer on economics and head of the sociology department of Mills College, whose home is at the head of Twilight way, is suffering from a broken arm as the result of a fall from a horse on the Arizona cattle ranch of Mr. and Mrs. Charles R. Runk, near Camp Rucker, Arizona.

During a horseback ride in rough country near the ranch with her husband, Dave Coolidge, writer, Mrs. Coolidge attempted to alight from her horse to walk down a steep trail. She fell, breaking an arm.

They were compelled to ride sixty miles to the nearest doctor before the fracture could be reduced. Mrs. Coolidge is now at home and her husband has gone to Wyoming to gather literary material.

WORKMEN DISCHARGED.

YOKOHAMA, Japan, July 5.—The Yokohama Dockyard Company has discharged 14,000 workmen because of dull commercial conditions, and 1000 more will be dismissed soon.

Half of the amount needed to finance the program was subscribed when Julian W. Mack of Chicago announced that the sum would have been raised within thirty days. Among the large subscribers were Sol Rosenbloom, Pittsburg, \$35,000; Mrs. Samuel Fels, Philadelphia, \$30,000; Nathan Straus, New York, \$25,000; the Hon. Louis D. Brandeis, Washington, \$10,000, and Mrs. Max Guggenheim, New York, \$5,000.

The report as presented by Robert Szold, New York, stated that the

PALESTINE FUND PLEDGED BY JEWS

PITTSBURG, Pa., July 5.—Resolutions affecting the development of Palestine and involving an expenditure of \$5,000,000, were adopted by the Palestine Development League at its closing sessions here yesterday.

The league's membership is composed of the minority group of the Zionist organization of America. The development program called for a wholesale co-operative corporation, building and loan association, industrial corporations, a farm loan fund and construction corporations.

Among the large subscribers were Sol Rosenbloom, Pittsburg, \$35,000; Mrs. Samuel Fels, Philadelphia, \$30,000; Nathan Straus, New York, \$25,000; the Hon. Louis D. Brandeis, Washington, \$10,000, and Mrs. Max Guggenheim, New York, \$5,000.

The report as presented by Robert Szold, New York, stated that the

DROWNED IN RIVER.

SACRAMENTO, July 5.—Frank Farris, 26, a truck driver, was accidentally drowned in the American river yesterday, when he lost his footing on the bank and fell into a pool. The water was only three feet deep, but Farris was unable to swim and was dragged down by the current. The body was recovered by boys bathing in the stream below.

Blood travels through the heart at the rate of seven miles an hour.

OAKS BREAK EVEN IN SERIES WITH KILLEFER'S ANGELS

CHARLES PADDOCK EQUALS WORLD'S RECORD IN 100-YARD DASH AT PASADENA MEET

DEL HOWARD PUZZLED OVER WORK OF 'SOCKS' SIEBOLD ON THE HILL

Pitcher Has Weakness, But Superintendent of Oaks and Others Do n't Know What It Is.

By EDDIE MURPHY

The Oaks broke even in their series with Los Angeles after getting off to a bad start, and the average baseball fan will admit that the team did nicely for a club away from home. Superintendent Del Howard, after watching the Oaks win both games of Sunday's double-header, decided to return to Oakland and he arrived at the local ball yard yesterday morning. The first thing that Herbie McFarlin shoved at him was the telegram which Manager Jack Hendrix of the Indianapolis club sent and which conveyed the news that Pitcher John Paul Jones would not report. So that left Del in bad spirits, and after learning that the Oaks had dropped the morning game to the Angels by allowing them to get four runs in the ninth, he cut loose a few remarks about Pitcher Harry Socks Siebold.

Del spoke of Siebold when informed that Harry was shaved into the box in the ninth inning yesterday morning in hope of saving the game for the Oaks. But for the third time, Del Howard was puzzled over the work of 'Socks' Siebold on the hill. He said that Siebold was a relief pitcher and that he was used as a relief pitcher and got bumped.

Howard thinks that Siebold is Nervous.

From the way Del spoke last evening, it will be up to Siebold to hit a winning streak pretty soon, or get a ticket that will carry him somewhere other than the box in the ninth half of the game. Howard stated that Siebold has a lot of stuff, but that he is something lacking in his makeup that neither he nor any of the other members of the club can understand.

Howard believes that Siebold's weakness is lack of nerve. He told on the other day, an Oaklandian, that Siebold was a relief pitcher and that he was used as a relief pitcher and got bumped. Howard said that Siebold was a relief pitcher and that he was used as a relief pitcher and got bumped.

Howard said that Siebold was a relief pitcher and that he was used as a relief pitcher and got bumped. Howard said that Siebold was a relief pitcher and that he was used as a relief pitcher and got bumped.

Winn Has Best Mound Record Of the Oaks

Reinhart Best in League, But Is Being Hard Pressed By Others.

George (Lefty) Winn took the lead from Harry Krause for being the best chucker on the Oakland ball club. Krause won and lost a game last week, making his record read ten wins and five defeats, while Winn won a game and his record is now seven wins and three defeats.

Reinhart of the Angels leads all the pitchers with eight wins and two defeats. But Frank O'Doul, Johnny Cooney, Lefty Schorr and Paul Fittery are right behind him. Winn is listed ninth among the regular chuckers in the amount of wins and losses. The pitching records follow:

Pitcher	W	L	ERA
Reinhart (Angels)	8	2	1.00
O'Doul (Angels)	7	3	1.00
Cooney (Angels)	7	3	1.00
Schorr (Angels)	7	3	1.00
Fittery (Angels)	7	3	1.00
Winn (Oaks)	7	3	1.00
Krause (Oaks)	6	5	1.00

A Champion Mermaid

CHARLOTTE BOYLE of New York is the holder of two world's swimming records and she promises to annex a few more this summer. She is entered in most of the national events and there is a possibility that she will visit the Pacific Coast before the end of the season and give some of the local mermaids a battle.

Oaks Almost Took Series From Angels

Ninth Inning Rally Beats Them in A. M., But They Win in Afternoon.

LOS ANGELES, July 5.—The Oaks and Angels broke even on their series yesterday afternoon, after the Oaks had won the morning game by a 3 to 2 score, but the Angels were lucky to get the even break, as the Oaks had the morning game all but tucked away when the Angels staged a ninth inning rally which won the game by a 3 to 2 score.

WESTERN ATHLETES WINNERS IN SENIOR EVENTS AT PASADENA

Los Angeles Athletic Club Finishes First With Thirty-Four Points, And Olympic Is Third.

PASADENA, July 5.—After most of them had watched the west conquer in the junior events of the A. A. U. held here Saturday, the athletes of California who perform in the senior events, stepped out yesterday and further upheld the fame of their state for athletics by carrying off the championship in their class. The Los Angeles Athletic Club athletes took first place in points scored with 34, while the New York Athletic Club was second with 30, and the Olympic Club of San Francisco third with 23.
